JOHN FERRES, GOVERNMENT PRINTER, MELBOURNE.

C.—No. 15.
MR. SHILLINGLAW TO THE HON. THE CHIEF SECRETARY.

TO THE HONOURABLE GRAHAM BERRY, PREMIER OF VICTORIA.

Sir,

The documents now submitted to you may fairly be called the First Annals of this colony. They are important as being official records, and they set at rest some points which have hitherto been in dispute or doubt regarding the settlement attempted by Governor Collins at Port Phillip Heads three quarters of a century ago.

As you have thought these early historical MSS. worthy of national publication, I have compressed in the form of a Prefatory Note a few facts necessary to the illustration of their character and value, and showing how they were brought to light.

I take leave to add that when future writers of Australian history come to tell the story of that marvellous national career which in less than fifty years has transformed a coast whaling-station and a few turf huts on the banks of an unnamed river into the noble Province of Victoria, they will not fail to recognize the public spirit which has induced you to preserve these memorials of an earlier attempt at its colonization which, happily for us all, came to nought.

I have the honour to be,

Your very obedient servant,

JOHN J. SHILLINGLAW, F.R.G.S.

Melbourne, 28th October 1878.

Lt.-Col. Royal Marines and Lieut. Governor of Port Phillip.

EARLY HISTORICAL RECORDS OF PORT PHILLIP.

Prefatory Note by the Editor.

To get a clear idea of the space of time in which the great English colonies have grown up in Australasia, as well as to mark the period to which the following historical records refer, an illustration, at once simple and striking, may be given in a few words.

At a little village a few miles from Hobart Town there still walks about a tale hearty man, who was born at Port Phillip. Heads on the 20th November 1803. His parents had landed there with the rest of the intended colony about two weeks before.

On the following Christmas Day, under the gum trees overlooking what is now called "Sorrento," after the chaplain's sermon to the assembled civil and military officers, the settlers and the convicts, Lieutenant-Governor Collins handed the little son of the sergeant of marines to the Rev. Mr. Knopwood and stood godfather to William James "Hobart" Thorne, the first-born of the settlement.

In another month godfather and godson, officers, emigrants, and outlaws had got on board their ships again, had hove up their anchors and sailed away for Tasmania, where Hobart Thorne and Hobart Town grew up together.

Lieutenant-Governor Collins was born in 1756. At the age of nineteen he was with his father's regiment at "Bunker's Hill," in the American Revolutionary War, and at thirty-two he went out, in 1788, as Judge-Advocate with Governor Phillip in "First Fleet," and so helped to found SYDNEY.

When we reflect that at that time there was not a white man resident on any part of the vast island-continent of Australia, or in New Zealand, Tasmania, or any of the islands washed by Australasian seas, we may form some idea of what has been done in the span of these two lives.

The journals of the early discoverers and explorers, which led to Collins being sent out by the British Government to establish a penal colony at Port Phillip, together with the records of the settlement itself have hitherto been very imperfectly known. The disappearance of some has been a bar to accurate historical narrative and the cause of many perplexities. Very recently, however, the archives of the Public Record Office of England have been successfully ransacked by the son of an early Victorian colonist, who has lately published the result of his five years' painstaking research. To Mr. Labilliere belongs the credit of having gathered from the vast collection of papers preserved in the Colonial and Admiralty offices in London most of the missing documents; and, for the first time, we read in his volumes the true story of the first discovery and subsequent exploration of this province, given in the exact words of the men who did the work.

But for some of these missing documents Mr. Labilliere sought in vain; and the Journals of Charles Grimes and Knopwood, now published, are of that number.

These fill up gaps in his collection, and their value will be best seen when read in connection with his full and clear narrative, which at the same time has rendered it unnecessary in this place to do more than sketch in a few outlines left by Mr. Labilliere untouched.

The journals of the early discoverers and explorers, which led to Collins being sent out by the British Government to establish herself somewhere in Australia—to covert Western Port perhaps into a second Pondicherry—lent weight to the concurrent testimony of Bass, Grant, Murray, and Flinders, as to the suitability of the south coast as a place for settlement; and the expedition of Lieutenant-Colonel Collins was the prompt result determined on by the British Government. But meantime Governor King saw fit to have a more particular survey made of Port Phillip. For this purpose the colonial schooner Cumberland of 29 tons (the same in which Flinders, exactly twelve months afterwards was made prisoner in the Isle of France) was equipped in Sydney, and placed in charge of Lieutenant Charles Robbins of H.M.S. Buffalo. Robins carried dispatches to the French commodore, known to be on the coast, in case he should fall in with him. Besides the crew, the party consisted of Charles Grimes, the Acting Surveyor-General of New South Wales; Dr. McCallum, surgeon; James Meegan, a surveyor; and James Flemming, a man in whom the Governor had great confidence, who was to observe the nature of the country explored.

Their orders were to "walk round Port Phillip."

The journal of the expedition, as it was related, was kept by Flemming, and the chart attached is a facsimile of the survey made by Grimes.

The Cumberland sailed from Sydney on the 23rd November 1802, and on the 5th December fell in with Bandin at Son Elephant Bay, on the east coast of King Island. Pennou, the naturalist of the French Expedition tells us what followed: 3 He says:—

"Just as we had made these arrangements for the safety of our ship we saw the little "schooner the Cumberland appear. She had come from Port Jackson and had on board Mr. Grimes, "Engineer-in-Chief of the English establishment, who came by order of the Government to make "a declaration to us which was as singular in form as remarkable in its object. "It being "reported," wrote Mr. King to our commander that you propose to leave some men either in 1800-4. Par F. Peron et L. Freycinet., Paris, 1807-16. 2 vols, 4to; carte, royau 4to.

Grimes's report of the nature of the country seen round Port Phillip was considered unfavorable,
and was sent home to England by the Glatton. Before the information reached the
Government, however, Collins had been despatched—27th April 1803—to form a penal settlement
at the place which had been described by Murray as resembling the scenery
of His Honor's having had from the outset a
personal
preference for Tasmania. The letters of Sir Joseph Banks to Governor King, which Mr. Rusden found in the papers of the
latter, clearly show that Governor Collins before he left London intended to go to Van Diemen's Land.
During the stay of Collins at Port Phillip Heads he issued from time to time a number of
Orders. These were printed at a small hand-press set up under a gum tree on the beach, and a
printed set has been preserved in London. The copy appended was made from the original MSS.
now treasured in the Parliament Library of Tasmania. The date of the first of these printed
Orders is given as the 16th October 1803, and it is curious to reflect that only eight months
previously George Howe had issued in Sydney the first number of the first journal published in
Australia, which contained the latest news from England then eleven months old.

The third document published is the Diary of the Reverend Robert Knopwood, who was
chaplain to the settlement. It commences with the departure from England, and day by day
carries the narrative of events to the final settlement of Collins at Hobart Town. Hitherto, and
until the publication of Mr. Labilliere's work, the only record of the voyage was to be found in the
account published by the first lieutenant of the Calculuta. Its author was a man of merit, sensibility, and taste, and, despite his amusing prediction of the future of Port Phillip, his book—which is now rare—deserves a reprint. Some extracts from Knopwood's diary were given in a
so-called life of William Buckley, "the wild white man," but that portion which is of historical value is now made public for the first time.

Many matters of curious interest respecting the inner life of the two settlements will be
found in Mr. Knopwood's diary. Consequences we know are ineradicable; but comment on these
doings, and on the personal conduct of those who have long since passed away, may be properly
left to other hands and to other pages.

Governor Collins died suddenly at Hobart Town on the 24th March 1810. It has been
stated that immediately after the Governor's death two officers of the government placed soldiers
at the door of the apartment, and busied themselves in burning all his papers. A kindly notice
of his character and a description of his funeral were written in the "Derwent Star," published on the 3rd of April 1810, by Mr. George Prideaux Harris, the Deputy-Surveyor. Three copies only of this paper are known to be in existence, but it has been reproduced as a literary curiosity at the "Hobart Town Mercury" office.

The Reverend Mr. Knopwood was one of the chaplains to the fleet, and a clergyman of the old school. He was born 2nd June 1761, died 18th September 1838, and was buried in the cemetery of a little Tasmanian village named Rokeby.

Mr. Charles Grimes, Deputy Surveyor-General of New South Wales, came to that colony in H.M.S. *Gorgon* in September 1791. He succeeded Mr. Alfred Alt, the first Surveyor-General who was invalided, and was himself succeeded by Lieutenant John Oxley, R.N. previously first Lieutenant of the "*Porpoise*." In 1808 Mr. Grimes acted as the Judge Advocate at the trial of Mr. McArthur subsequent to the deposition of Governor Bligh.

Some particulars of the career of others of the early settlers will be found in the "Van Diemen's Land Anniversary and Hobart Town Almanac" for the year 1831, and Mr. Calder has contributed much information on this subject to the Tasmanian Press.

Captain Woodriff in November 1806 made a heroic defence of the "Calcutta" against a powerful French squadron, but was captured and long remained a prisoner at Verdun. The "Calcutta" was subsequently blown up in the affair of Basque Roads. On Woodriff's release he was made a C.B. In 1839 he was appointed to Greenwich Hospital, where he died in 1842.

Captain James Hingston Tuckey, the First Lieutenant of the "Calcutta," an officer of merit and varied services, who wrote in a French prison and subsequently published several works connected with geography and navigation, fell a victim to African fever and anxiety in the conduct of an expedition to explore the Congo. Only a few months since Stanley accomplished what was attempted by Tuckey in 1816.

It remains to add a few particulars as to the discovery of these documents.

"The Grimes Survey and Journal" were eventually found by me last year in the archives of the Colonial Secretary's office at Sydney, after a protracted and persistent search, involving I will not say how much patience, and causing I am afraid to say how much trouble.

"The General and Garrison Order Book" of Lieutenant-Governor Collins comes from the Parliament Library of Tasmania, and was carefully copied by Mr. G. E. Collett, the sub-librarian.

"The Knopwood Diary" is in the possession of Mr. V. W. Hookey, solicitor, of Hobart Town, a family connection of one of Mr. Knopwood's executors. By Mr. Hookey's consent a copy of it was made and presented to the Government of Victoria by Mr. J. E. Calder, formerly Surveyor-General of Tasmania, whose ardour as a collector of such matters is well and widely known, and whose name is a sufficient guarantee for the scrupulous accuracy of the transcript.

All the foot-notes appended by that gentleman are marked "C."

The portrait of Collins is from a miniature, engraved for his own "Account of New South Wales." That of Captain Woodriff is taken from the painting in the possession of his family at Sydney, and for that of the Reverend Mr. Knopwood I am indebted to the Very Reverend Canon Bromley, of Hobart Town. It is copied from the original sketch by the late Hon. Thomas George Gregson of Risdon, the first ground broken in Tasmania.

In the search for these early historical records of Port Phillip, the thanks of this colony are due to Sir John Robertson, K.C.M.G., the late Colonial Secretary, and Mr. Henry Halloran, C.B., the late principal Under-Secretary of New South Wales; as also to Mr. R. Adams, the Surveyor-General of that province. I am besides much indebted to Mr. G. D. Hirst, acting for Mrs. Woodriff, of Sydney, as well as to Mr. Alfred Kingston, of the Public Record Office in London.

Of those who took part in the attempted colonization of Port Phillip three quarters of a century ago, but three persons are now alive, namely, the son of the Marine Sergeant Thorne above referred to, Mr. Frank Pitt of Hobart Town, and Mr. James Hobbs of Melbourne whose portrait is given in this collection. At the age of eighty-six this gentleman lives to recall the incidents of life in the tents of Collins's Camp at the Heads and subsequently in the turf-built huts of Hobart Town. The son of a Naval officer who was killed at the taking of Egypt, his mother, on the advice of Lord Hobart, emigrated with Collins. Mr. Hobbs, who had previously been in the Navy, joined as midshipman the King's ship then stationed at Sydney, and his recollections of facts connected with the conduct of Governor Bligh on board the "Porpoise" have become historical. As a colonist Mr. Hobbs had his share of the hardships of the early days. He did good service as an explorer, and his facts against the bushrangers lie buried in old Van Diemen's Land newspapers. He has lived to see the country pronounced by Collins uninhabitable become the most remarkable of England's colonies; and a handfull of his countrymen, on the sea-board of a continent, spread and grow into seven great centres of civilization. In the space of the life of a man now moving in our midst the thing has been done, and the predictions of poets, philosophers, and statesmen verified in the Australasia of to-day.

1802.

Tuesday, 23rd November.—Sailed from Sydney Cove on board the Cumberland; a fine wind after we cleared the Heads; nothing remarkable except the jolly boat drifting at night off the Five Islands.

Wednesday, 24th.—Sailed along a high shore; at night off Cape Dromedary.

Thursday, 25th.—Saw Cape Howe, between which and Ram’s Head there appears to be several spots of clear ground.

Friday, 26th.—A gale of contrary wind; drifting all day.

Saturday, 27th.—A calm; drifting all day.

Sunday, 28th.—High wind; drifting all day.

Monday, 29th.—A fine day; opposite the same shore as on the 26th.

Tuesday, 30th.—Got past Ram’s Head.

Wednesday, December 1st.—Went but a few miles.

Thursday, 2nd.—Calm.

Friday, 3rd.—Stood for Kent’s Group.

Saturday, 4th.—Anchored in Kent’s Group; in the morning went on shore, collected some specimens and seeds, killed some ducks and a kangaroo. One dog was bit by a snake and died. Saw many seals and sea lions. The islands are covered with a thick brush and oak.

Sunday, 5th.—Went on shore to another island; barren; caught a kangaroo. The rock is granite. Sailed from Kent’s Group; a fine wind.

Monday, 6th.—High wind and heavy rain; laying-to till morning.

Tuesday, 7th.—Little wind; half knot an hour.

Wednesday, 8th.—Saw smoke on Elephant Island (east coast of King Island); we did not think we were so near land. At five p.m. saw two ships at anchor, the Geographe and Naturaliste, dropped anchor near them. Capt. Robbins and Grimes went on board; the Naturaliste sailed the same night.

Thursday, 9th.—Early in the morning the captain and Mr. Grimes went to the Commodore’s ship and on their return heard that two vessels were lost off the “Sisters.” A party of us went on shore; a fine sandy beach; we walked to what is called the Great River; there is a bar at its entrance into the sea. It is salt for a mile up when it begins to be fresh water; we did not go far up. If the trees were cleared away boats might go up it even at low tide. In our walk met with eight prisoners the French Commodore had turned out of his ship. He gave them 10lbs. of bread each; they told me that there were three more on board. It being a rough sea it was 11 o’clock before we got on board. Elephant Island is covered with seals and mutton birds.

Friday, 10th.—Weighed anchor and came a few miles nearer land. The captain and Mr. Grimes dined with the commodore; in the afternoon the boat went for an anchor stock. McCallum, the surgeon, and self went on shore, stayed all night at some huts belonging to the ship Margaret’s gang.

Saturday, 11th.—Went a little way into the country; being in expectation of the boats coming on shore, went along the beach to the French tents. It is a fine sandy beach with several runs of fresh water; the north-east part rocky. Went on board p.m.

Sunday, 12th.—High wind; a great swell; no one on shore.

Monday, 13th.—The captain and Grimes dined with the French tents. McCallum and self went on shore in the afternoon; joined the captain and went to the huts we were at before.

Tuesday, 14th.—The captain went on board; McCallum and self examined the country a little way towards the sea; it is high and sandy about half a mile in deep black vegetable mould, mixed with sand; the timber small. There are the remains of some very large gum trees, but they are all rotten; the low ground is a little swampy. Mr. Grimes joined us in the evening and was informed that the captain [Robbins] hoisted His Majesty’s colors behind the French tents.

Wednesday, 15th.—The party (seven) set off in the morning; at three miles crossed the Great River; three feet deep at low water travelled along a sandy beach. About six o’clock came to a spring of water and stopped the night; high hills and thick brush. Caught a kangaroo and three porcupines.

Thursday, 16th.—Went inland; at one mile found a fresh water lagoon; about 20 acres between it and the shore; the ground is high and sandy. Ascended a hill where I could see some miles. The tops of the trees appear dead and a thick brush; all the ground is sand with black vegetable mould. I went several times to the top of the hills; a white sand appears on them as far as the eye could reach; there appears to be a chain of lagoons about two miles from the sea. Came to Coomb’s Bay where we stopped the night.

Friday, 17th.—A wet morning. Started about twelve; travelled along a rocky shore; the rain and hail annoyed us much, there being no shelter. Walked till about six o’clock and finding no fresh water came back about a mile to a spring; erected some bushes to protect us; stopped the night. Caught some kangaroo; rain and hail all night. The country barren; the shore high rocks, many of them projecting far into the sea.
Saturday, 18th.—Continued our course on the rocky shore till we came to a spring, and being told by our guide that there was no fresh water for some miles, halted. Mr. Grimes and self went to the top of a high hill where we could see ten miles. The land appeared barren, a scrubby brush, and but little grass; in bottoms are many rushes.

Sunday, 19th.—A wet morning. At noon continued our march, rain and high wind. The beach sandy; came to a salt lagoon opposite New Year's Island. Stopped the night; caught some emus and ducks.

Monday, 20th.—Mr. Grimes and men went back to continue his survey and I went along the salt lagoon till I came to a fresh-water river; traced it about two miles; came to a large lagoon. At the entrance are two small islands; it appears to be three-quarters of a mile long and three or four hundred yards wide; it is covered with bullrushes; a hill on one side, level on the other. Returned through the bush which is about half a mile from the sea. There is some tolerable grass where the brush is thin. Saw some fine trees by the river side but in every place I have seen the large trees are decaying and fresh ones springing up.

Tuesday, 21st.—The weather still wet. Made a signal for the George's boat to come on shore as we had no bread for some days. We moved our camp two miles further to where the boats usually land. Mr. Grimes went on board and procured us some biscuit until our vessel arrived.

Wednesday, 22nd.—The wet continuing sent a party to hunt while the others made the huts more secure. In our journey saw many sea elephants, but few seals. The elephants are in the greatest plenty at the mouths of fresh-water streams. The country round this place is hill and dale, sand and vegetable mould very light. The hunting party returned with three emus, three porcupines, and two kangaroos.

Thursday, 23rd.—Being a fine day went to shew Grimes and McCallum the fresh-water lagoon, and the wind being shifted began to expect our vessel which we did about 3 p.m. Not having seen her for eleven days we began to have serious apprehensions of her safety.

Friday, 24th.—The Cumberland anchored off New Year's Island. In the morning the boat came on shore, I went on board; was informed she had been drifted to Kent's Group and lay there till the wind shifted.

Saturday, 25th.—Went on the islands. Their shore is rocky, covered with seals. I came on shore with a washing party, the captain intending to follow in the morning, to proceed into the interior. On examining the specimens gathered at Kent's Group found them all damaged with wet.

Sunday, 26th.—The captain, and Mr. Grimes, and the doctor came on shore in the morning; remained at marquee all day.

Monday, 27th.—Set out at six o'clock, back the same coast we had been before. Met a hunting party sent out the day before with four kangaroos and four badgers; stopped about seven miles for Mr. Grimes to continue his survey; on his return dined. Afterwards went to a lagoon about three miles from the sea. The road to it is through a thick brush and sandy hills. There are some clear spots covered with rushes and appears at times to be flooded. Dug a spot of ground and sowed some seeds. The soil is a light black sand about 8 inches deep on the hills, and from eighteen inches to two feet in the valleys, at bottom white sand. At the end of the lagoon, next the sea, there are some forest land with large gum trees; the soil sandy, and in the marshy grounds are large fern trees with deep black soil.

Tuesday, 28th.—Went along the side of the lagoon a little way, it is of considerable extent. Afterwards divided into two parties. Mr. Grimes, the doctor, and two others to examine the lagoon; the captain, self, and two others to look into the country. The ground is alternately forest and swampy; the soil is shallow on the hills, and deep black earth in the bottoms. The wood is from four to six feet in diameter and about twenty on an acre. A little way from the beach was taken ill by drinking some bad water. Stopped some time behind the party. I soon recovered and arrived at head-quarters before sunset, where I found all the others arrived about two hours before.

Wednesday 29th.—Made a signal in the morning for the boat to come on shore. Sowed some seeds, and the boat not coming, we set off after dinner, twelve in number, having been joined by one Smith, belonging to Cable's gang, and two natives from Sydney. Travelled about three miles, and being informed that we should not find water for a long way, stopped for the night.

The shore is rocky, projecting a considerable way into the sea in many places. On our departure each man took thirty-two biscuits with him, as we expected plenty of game. In the evening caught three young emus, twenty-three seal, and eight kangaroos.

Thursday 30th.—One man went back to the tent with the emus, and we proceeded along the shore. Crossed a fine stream of water and several springs. I am of opinion that the springs issuing from the hills come all from lagoons in the interior. We were joined in the afternoon by the man back in the morning. This day caught four emus, three badgers, three porcupines, and a kangaroo. The shore appears the same as on the preceding day.

Friday 31st.—Set out at six o'clock. At about three miles parted, the captain, self, and three others into the country; Mr. Grimes, the doctor, and the other five proceeded to survey the coast. At about a mile from the sea found a small spot of grey loam. Proceeded up a run of water the ground swampy; came to the head of it at about half-a-mile, the ground rising a little. Travelled about three miles over a level country, the timber being chiefly gum and tea-tree; the soil sandy. There have been very large trees, most of which have fallen. The standing timber is from 60 to 100 feet high, and from one to three feet in diameter. Returned to the beach nearly the same road we went, and, after dinner, went to the stream of water seen on the 30th ult. Went up it a little way, and stopped the night.
January 1st (Saturday).—Started early in the morning to examine another stream seen as above. The brush was so thick that we could not proceed. It goes up between hills, as far as we could discern, three or four miles. There is a little waterfall near the beach. Returned back, and stopped the night.

Sunday 2nd.—Set off at eight o'clock up another stream. There is a considerable current for about a mile, when it became dry at bottom, soon afterwards water, at about three miles swampy, about 18 inches deep of water, and very thick of trees; the water began to extend a considerable width, and, being so very thick of brush, left the swamp and went over some dry ground for about a mile and came to a lagoon. Came up with it at the west end. It appeared to turn to the right and left at the east end and three-quarters of a mile, and could distinctly see its form. From thence to the sea, about four miles, is a very thick brush, with many fallen trees, which make travelling nearly impossible. The land dry and sandy, and many large gum trees. At five o'clock came to the place we set out from, and stopped the night.

Monday 3rd.—Started at six o'clock, and made straight for head-quarters, where we arrived between nine and ten o'clock a.m. Made a signal for the boat to come on shore, which soon arrived. Went on board for some necessaries, and came back to the tent in the afternoon.

Tuesday 4th.—A party of the crews of the Cumberland and George were coming on shore for blubber. The surf being very strong, two of the men belonging to the latter were drowned; six more were in the water, but got safe out. The men who perished were Cato, late gardener to Mr. Palmer, and Emmanuel, late gunner on board the Anne. The day was spent in finding them and sending them to the New Year's Island to be buried.

Wednesday 5th.—Went with the captain and two others to the lagoon seen on the 20th ult.; traced it from end to end. At top there is a small run of water comes into it down a sandy hollow. Went on the top of a hill and ascended a tree; the appearance—dead-topped gum trees, sandy hills, and thick brush. It is with the greatest difficulty that one can pass through it. Returned in the afternoon, and found Mr. Grimes and party returned. From what I was informed they had not been so far as they intended to have gone when they set off.

Thursday 6th.—Made a signal early in the morning for the boat to come on shore, as we wanted some necessaries previous to our setting off into the country. The boat not coming, remained at marquee all the day.

Friday 7th.—Continued the signal in the morning, and, it not coming, the captain went on board in the George, in the evening, which came on shore for cooking, which had come from Elephant Bay. They informed me that the French commodore had sailed about eight days before, and that he had lost two anchors and a launch. Rain and thunder p.m., with high wind most of the night.

Saturday 8th.—The captain arrived early in the morning, and, it being a showery day, remained at marquee all day.

Sunday 9th.—At nine o'clock the captain, self, Harry, and a seaman set off with an intention to cross the island. We went along the shore to the stream we were at on the 2nd inst. Went to the lagoon we had been at before; we came to it at another place than we had previously been at. It appeared much larger, and fuller of tufty grass, the brush being very thick round it, and the water only knee deep. We ventured through it. It was nearly the same depth all the way over, which we supposed to be about two miles. It is full of tufty grass and bulrushes, of a circular form. We afterwards kept an easterly course through a level country, sometimes dry, at others swampy. Trees small and very high, except some very large gum trees. It rained most of the day, which made it very disagreeable travelling. Marched till sunset, and it was with difficulty we could make fire.

Monday 10th.—Started at four o'clock in the morning. Met with some fine land, the soil more strong and of a loamy nature. Went over some miles of it—some of a reddish, other of a grey cast. The trees are very high. I measured a gum tree that appeared lately fallen; 100 yards clear stem, and between five and six feet diameter. As near as I could judge there are about 20 per acre. The others small and straight. The poles are only two or three feet apart, very high and straight, from six to eighteen inches in diameter, of various sorts; high fern and sword-grass; a fine deep black soil. Passed a spot of muddy ground, where we saw some badgers and lizards.

Tuesday 11th.—Started at six; continued our course. The country nearly as on the preceding day. At about two or three o'clock came to a swamp, with some very high fern trees. A little further came to a small stream of water. Traced it a little way, but finding it did not run directly in our course, the captain left for about a mile, when we fell in with it again. It was considerably larger, and I supposed it to be the head of the Great River, which runs into Elephant Bay. We traced it by crossing several times, there being many trees fallen across it. At about two or three o'clock discovered it the place we first discovered it; the water became salt, where the river is wider and fit for a boat to pass, between which and the beach are several small islands; on each side a tract of clear marsh, one side green, the other dead rushes; the side of the marsh next the sea hilly, the other level forest land. Saw many swans and ducks, and at six o'clock arrived at the mouth of the river in Elephant Bay. I suppose it may be about five miles from the place we first fell in with it to the bay. The same night we went to Cooper's, and stopped the night, being very tired and hungry.

I was informed that the French commodore took on board four of the prisoners which he landed on our arrival and one Lyons, an Irishman.
Wednesday 12th.—Set out at six o'clock, along the shore. Walked till four o'clock, when we shot a kangaroo. Sat down to broil it, but, the brush taking fire around us, was obliged to move a little further, where we made another fire; and it was our intention to have stopped the night, but, the wind being high and the smoke troublesome, about eleven o'clock we thumbed our way to the bush, and we marched on towards the marquee, where we arrived at four o'clock in the morning.

Thursday 13th.—Remained at head-quarters all the day. A party went out foraging, and returned with five emus, two young live do., and a kangaroo.

Friday 14th.—The boat came on shore in the morning, and Dr. McCullum went on board, and I went into the country with two men to get specimens of wood.

Saturday 15th.—Looking over specimens and seeds; the captain taking observations.

Sunday 16th.—The boat came on shore in the morning, but, the wind being high and much surf, we did not go on board.

Monday, 17th.—In the morning two men went after some game; the boat went to the vessel with part of the luggage, and in the afternoon returned with the George's long boat, when we all went on board.

As far as I went round the island the hills are high and sandy for 2 or 3 three miles in, the brush very thick, and little grass. The interior is level, and in many cases swampy, with large lagoons. There is some good land in the middle of the island, but the timber is so thick and lofty that I could form no idea of its extent. The timber in general is gum-tree, mimosas of sorts, some ash, cotton bark, Banksia and Rhamnus; saw no cedar. The best place for a settlement is either in Elephant Bay or opposite New Year's Island; but as we saw but little of the interior there are perhaps better places. The shore is in every place difficult of access for vessels. Elephant oil and spars are the only articles of commerce the island produces; on the adjacent islands there are plenty of seals.

Tuesday, 18th.—All hands up at daylight; the Captain went sounding whilst the others were weighing anchor. At half-past nine o'clock sailed from New Year's Island, and at two saw land; supposed it to be Cape Albany (Albany Otway). Our company consisted of eighteen, the captain having taken on board Smith and Jones, who had been with us since our arrival on the island. This day had my provision served out by myself.

Wednesday, 19th.—Out of sight of land; a calm. At five p.m. saw land; at nine came to anchor.

Thursday, 20th.—In the morning off high land; the hills high and verdant. The trees inward appeared large. There appeared an opening like a small river to the eastward; at noon a valley with gentle rising ground, behind which the timber appeared large. At eight o'clock anchored in Port Phillip; hot winds most of the day.

Friday, 21st.—Weighed anchor early in the morning, and came further into the bay; dropped anchor. The Captain, Mr. Grimes, doctor, and myself went on shore, and walked across a neck of land to the sea, whilst the carpenter repaired the boat. The land is a light, black-sand pasture, thin of timber, consisting of gum, oak, Banksia and thorn. Saw the scutes of some lagoons, all dry except one salt one; the land is about a mile and a half over; came on board in the afternoon.

Saturday, 22nd.—All hands up at daylight. The captain went sounding; on his return Mr. Grimes, doctor and self, two marines and two assistants to the surveyor went on shore, as we went with two huts, apparently built by Europeans; a little farther met with fresh water in a swamp about fifty yards from the beach; farther on a small run of water. The country level; timber as the preceding day.

Sunday, 23rd.—Early in the morning the same party as yesterday, with the addition of the captain, went on shore; we ascended a high hill; the land good until we got near the top, where it is stony. On the north and south sides of the hill there are from 2,000 to 3,000 acres of good land, a specimen of which is taken. Mr. Robbins and self went to the top of a hill, it appeared fine land at a distance, but only stones and short brush as we approached it; saw Western Port distinctly from the top of it; we supposed it to be about five miles from the beach. Returned through an extensive swamp. On the side of the hill met with two dinges with some fresh water in the deep holes. Mr. Grimes and the others took another way at the bottom of the first hill; we found them on board at our return. The country all newly burnt. Caught plenty of fish; a shark took a mariner's jacket out of the boat.

Monday, 24th.—At seven o'clock the same party as on the 22nd went to continue the survey. At three miles a swamp, several runs of water, only one good, and all blocked up at the beach. The rest of this day's journey hills, rocky land; light black sand, fine grass, and the trees low and scruffy. Several dinges on the side of the hills; found a little water in two holes.

Tuesday, 25th.—Having a sore foot stopped on board. Mr. Grimes and party went on shore at the usual time, and continued the survey till about two o'clock. From what the doctor informed me the land on the preceding day; looked over seeds and specimens, &c.

Wednesday, 26th.—The Captain, Grimes, doctor, self, and three seamen set off for Western Port; at two miles a swamp without trees, and fine grass; over a swell another of the same sort.

1 Near Point King (Sorrento) 2 " London Bridge." 3 " Golden wattle." 4 Wannaeue (Bonco) Swamp. 5 " Arthur's Seat." 6 Wannaeue Swamp. 7 Western slopes of " Arthur's Seat" Ranges. 8 " The Big Swamp."
Found no water till we came near the Fort; saw some ducks, which was a sign of water; made to the place; it was salt, but I went a little further up and found it fresh. I stopped there with one man, and the Captain, Mr. Grimes, and another went on to the Fort; they got into a swamp and did not reach the beach in two hours; they returned, and after dinner we returned back the course we came. Previous to our reaching the water the doctor was so fatigued for want of water that he could not go on; he was left with a man, gun and compass, to make the best of his way back to the vessel. He sent the man off to the vessel for water with the gun and compass, and he moved from the place where we left him. On our arrival found the man but not the Doctor, and it being dark nothing could be done till morning.

_Thursday, 27th._—When we left the men set off to the Fort to look after the Doctor; in an hour after they were gone saw the Doctor walking on the beach, when a boat was sent to bring him on board. Immediately three muskatoons were fired to bring the parties back, but they did not hear them, and they returned in the afternoon. Thunder, high wind, some drops of rain, and excessively hot for two days past.

_Saturday, 29th._—At eight o'clock Mr. Grimes, self, and four others went on shore to continue the survey from the 25th. There is a small river where we began; a little further some fresh water; crossed several dingles, all dry. At about two o'clock came to fresh water; it appears to be a considerable stream in wet seasons. I went but a little way in the country being alone. Afternoon the country more woody and land something better. The day very hot, and found no swamp, but sand when broken.

_Sunday, 30th._—The same party as yesterday went on shore at eight o'clock. About a mile from the fresh water there is a deep gully; I crossed it about half a mile from the beach; it appears to run a great way into the country. I ascended a hill where I could see eight or ten miles, hills without trees, narrow valleys with scrubby brush. The soil black, sandy soil; timber small and low, the shore rocky, iron-colored stone, but sand when broken.

_29th._—The same party as yesterday went on shore at eight o'clock. About a mile from the fresh water there is a deep gully; I crossed it about half a mile from the beach; it appears to run a great way into the country. I ascended a hill where I could see eight or ten miles, hills without trees, narrow valleys with scrubby brush. The soil black, sandy soil; timber small and low, the shore rocky, iron-colored stone, but sand when broken.

_Came to a salt lagoon about a mile long and a quarter of a mile wide; had not entrance to the sea. Soon afterwards came to a large river;10 went up it about a mile when we turned back and waited for the boat to take us up the river. The ground is a swamp on one side and high on the other. Saw many swans, pelicans, and ducks. Were obliged to go up to our middle to get to the boat, and got on board between five and six o'clock. Rain and thunder in the night._

_29th._—The same party as before went on shore about seven o'clock to continue the survey from 30th. There is a slip of trees from four to six chains from the beach within which is poor sandy land with short brush, and no trees inwards for several miles. In the afternoon the country more woody and land something better. The day very hot, and found no water. Saw two large emus.

_Wednesday, 2nd._—At the usual time the same party as yesterday, with the addition of the doctor, went on shore; for about a mile the land dry, a light sandy soil; afterwards a large swamp, with three lagoons in it, all dry. The land appears to be covered with water in wet seasons. Came to a salt lagoon about a mile long and a quarter of a mile wide; had not entrance to the sea. Soon afterwards came to a large river; went up it about a mile when we turned back and waited for the boat to take us up the river. The ground is a swamp on one side and high on the other. Saw many swans, pelicans, and ducks. Were obliged to go up to our middle to get to the boat, and got on board between five and six o'clock. Rain and thunder in the night._

_29th._—The same party as before went on shore about seven o'clock to continue the survey from 30th. There is a slip of trees from four to six chains from the beach within which is poor sandy land with short brush, and no trees inwards for several miles. In the afternoon the country more woody and land something better. The day very hot, and found no water. Saw two large emus.
Friday, 4th.—Started at six and came to the branch we passed before, at the entrance the land swampy; a few miles up found it excellent water, where we saw a little hill and landed. The time dinner was getting ready Messrs. Robbins, Grimes, and self went on the hill, where we saw the lagoon seen from the hill where we first landed. It is in a large swamp between the two rivers; fine grass, fit to mow; not a bush in it. The soil is black rich earth about six to ten inches deep, when it is very hard and stiff. It is better farther back. About two miles further went on shore again; the land much better and timber larger. Soil black, ten to fifteen inches deep; bottom sand or gravel. I went to the other side where the ground was the same; went in about two miles; it began to rain. I returned to the boat and after dinner we all got on board and arrived on board the vessel at dusk. Saw a canoe and two native huts.

Saturday, 5th.—Early in the morning the captain went with some casks for water to the place where we were at the preceding day; they returned in the evening. Mr. Grimes and the doctor were on shore but returned in about an hour.

Monday, 7th.—Early in the morning the party that went up the river before with the doctor went up to the little hill we had been at on the 4th, when we stopped to breakfast; proceeded on to a creek where we dined. Saw some natives. The land in general is a fine black soil, ten to eighteen inches deep. Timber; gum, Banksia, oak, and mimosa of sorts, but not large except the gum. The river appears to rise to the height of eight or ten feet at times by wreck on the trees. Went alternately into the land on both sides the river; it continued nearly of the same quality. The greatest part of the land is above the floods. Proceeded on till sunset; stopped the night.

Tuesday, 8th.—Sowed some seeds by the natives hut, where we slept. Continued our course up the river; the land high; rocks by side of the river; it is a freestone, the strata on edge. Came to a fall, where we could not get the boat over. We went inland a little way. It is stony, about six inches black stiff soil, white clay at bottom. Mr. Robbins got up a tree; saw it to be gently rising hills, clothed with trees, for ten or fifteen miles. A little above the fall there is a small island, and the river divides in two. The timber in general is gum, oak, and Banksia; the two latter are small; the gum two to four feet diameter, and from ten to thirty feet high; on some of the low ground they are something larger. We were not more than half a mile from the river. Returned back, and crossed a neck of land 300 paces over whilst the boat went round. Came to our old station at the large lagoon. I went about two miles inland and fell in with seven natives. I saw Messrs. Robbins, Grimes, and McCallum, at the lagoon. From the hill saw the vessel; returned to the river, and after dinner set out for the vessel, where we arrived about seven o'clock; the land at two miles inland is of a better quality than the specimen.

Wednesday, 9th.—Continued the survey from the mouth of the river. The land for two or three miles is a gentle rise from the beach, which is muddy, with large stones; the land stiff clay, the stone appearing at top; a little further, near the beach, a swamp light black sand, white shells at bottom. There is a slip of trees about half a mile from the beach, then a clear level plain to the mountains, which I suppose to be fifteen or twenty miles. Passed two inlets of salt water. Got on board at two.

Thursday, 10th.—At six o'clock the same party went on shore. The slip of trees by the beach continued about a mile, when the shore became more high, about eight or ten feet above high water mark; we proceeded on for four or five miles, and the wind being contrary we observed the vessel "bring to," and we walked back and got on board about three o'clock. Several mantaills shells picked up.

Friday, 11th.—At eight o'clock the captain, doctor, self, and carpenter, went on shore. We observed a hill at a distance and made to it; we crossed the two runs seen on the 9th; one ends in a swamp, the other salt water where we crossed it, the country very level, some plains, stony, and much water to lodge in it in wet weather. Went to the top of the hill; it is stony; could see about ten miles around us a level plain with a few straggling bushes. The face of the ground is one-third grass, one-do. stone, and one-do. earth, mostly newly burnt. Returned back nearly the same course, and found some brackish water in one of the runs we crossed before. Got on board about three o'clock.

Saturday, 12th.—Anchor up at sunrise; proceeded up the bay opposite to the place where the survey was left off on the 10th, the vessel being about the middle of the bay. We crossed over in the boat to the other shore. The party consisted of the captain, Mr. Grimes, the doctor, self, and seven seamen and marines—in all eleven, with four day provisions; got on shore at five o'clock. I went on the top of a hill, where the land is good and fine pasture from ten to eighteen inches deep, fine black earth with white sandy clay or gravel bottom. The timber small and the same as before-mentioned. Came up with the doctor, and we went about two miles in, the country appearing the same.

Sunday, 13th.—Set out at six o'clock, the captain and three men in the boat, the rest on shore. The land and timber is of the same quality for several miles, and there are five dingles,

which are runs of water in wet seasons, but all dry. The shore became swampy. Crossed the mud up to the knees; it continued low and muddy a considerable way. We stopped and dined opposite to a salt lagoon; started soon after, having but little water. The swamp continued for some miles farther, when I saw a high point of land, which I crossed, and it being near sunset, we dug for water, but it was salt; we had not half a pint per man.

Monday, 14th.—Continued our course as soon as it was light. A large swamp two or three thousand acres, a brush of saltwort. Crossed two places up to the middle. Came to a fine green hill, very fine land, eighteen inches deep of rich black soil. The captain went on before in search of water, but found none. I crossed over the hill to the beach, and found an acid spring. Hailed the boat, and the surveyor came up about ten o'clock, when we breakfasted, and filled the cask and proceeded on. The land behind the hill high and woody. Came round to a river: went up it about a mile in company with the doctor. At the end of the salt water found a hole made by natives; drank of it and returned back to the beach where the boat had "brought up." I went back to the hole and dug it larger, and brought some of the water. The land is not of so good a quality after I crossed the river; timber small and crooked, mostly oak and Banksia.

Tuesday, 15th.—In the morning two men went for some water; set out about eight o'clock. I went over a plain and met with a river; went up about a mile and a half; it continued salt and wide. Returned to the beach, where the party was waiting for the boat to take them over; it being low water the boat could not get up; crossed it up to the middle and a little further, dined. Proceeded on round a point, the land stony and no wood; came to a swamp and another river. I did not go up it as it was near night. Had much difficulty to find wood.

Wednesday, 16th.—Breakfasted before daylight. The captain and crew went back to the native hole for water, whilst the others proceeded on the land. Swamps, with gentle rising stony ground; some scissures of lagoon and small runs, all dry. About two o'clock the boat came up with us, and got four gallons of water, and walked on till sunset; a bad fire this night. Five pounds of bread per week. Passed three islands, one large and two small; some mangroves on the large island, only a few scattered trees on the plain. Many swans, ducks, and luggs.

Thursday, 17th.—A bad fire and swampy beach this night. Had about 1 lb. of flour; boiled it for our breakfast for all hands. Mr. Grimes would not go any further without provision; the captain went off to the vessel for some, and inadvertently took what water we had left boiled it for breakfast for all hands. Mr. Grimes seemed much frightened and hailed the boat to follow us; when the boat came up we sat down to dinner. Afterwards continued our march to another large river. The boat being at hand, it took over Mr. Grimes and his party; he proceeded to the place where he left them, and we returned and were soon joined by the surveyor; &c. Got on board about seven o'clock.

Friday, 18th.—Anchor up at sunrise; came opposite the place we slept on the 12th inst. As we went out of the boat eleven natives met us; they appeared to be their chief. They handed us their spears to look at; one of them was barbed and one with two prongs. They followed us as we went on, and Mr. Grimes called him back, got the water in a camp kettle, and proceeded on about a mile. Came to a river; went up about two miles in company with the doctor, where we found excellent fresh water. There is no run above the fresh water, only some pools; it appeared to be a considerable run in wet seasons. Crossed over to the other side, and came opposite to Mr. Grimes and party, and they went round. The land was a little better by the river side, but swampy near the sea. Proceeded on to another river; it ended in a swamp about a mile up. Soon after the boat returned from the ship, when we sat down to dinner. Afterwards continued our march to another large river. The boat being at hand, it took over Mr. Grimes and his party; he proceeded to the place where he left off on the 10th, and I went up the river a little way in the boat. It is the second in size we have met with. The captain did not think fit to go further, and we returned and were soon joined by the surveyor, &c. Got on board about seven o'clock.

Saturday, 19th.—Weighed anchor at daylight; came opposite to the place we slept last night. Dropped anchor and breakfasted. Got on shore about nine o'clock. The beach muddy; the land a swamp, timber as before. Came opposite to an island. The vessel "brought to," and we went on board about one o'clock. Soon after our arrival on shore two of the natives we had seen on the preceding day came to us. They looked much at my buttons; I cut two off and gave each of them one, and some biscuit. They went with us upwards of a mile and returned. After dinner Mr. Grimes went to take some bearings, and the captain to sound.

Sunday, 20th.—All hands on board till after dinner. The captain went to sound, and arrived at dusk.

Monday, 21st.—Anchor up at daylight; dropped ditto at about seven. The captain, Mr. Grimes, and a party of seamen and marines, went on shore; we were now in sight of the entrance of the port. Mr. Robbins told me not to go on shore; it began to blow and rain, and they all came on board at two o'clock.

Tuesday, 22nd.—Weighed anchor at sunrise, and came to the opposite shore. Mr. Grimes and assistants went to finish the survey on the south-east point of the entrance; the captain to sound. They returned on board about four p.m.

Wednesday, 23rd.—Weighed anchor about seven o'clock, and came opposite to the watering place. The wooding and watering parties went on shore. I went to examine the run of water; it was dry, except a small pond near the beach. Traced the run about a quarter of a mile; it ends in a lagoon, which was dry.

Thursday, 24th.—All hands wooding, watering, and washing. I sowed a variety of seeds by the watering place; the land is light and sandy. I went towards the bottom of Arthur’s Seat, and met with lagoon with fresh water. The captain and Mr. Grimes came on shore in the evening, and all hands got on board at dusk.

Friday, 25th.—About nine o’clock the captain, Grimes, and doctor went to examine a shoal and take some bearings; they came on board about two, and in the afternoon some of the crew went on shore to finish their washing. About ten at night the man on watch observed the small boat gone; the whaleboat was immediately sent in search of her.

Saturday, 26th.—About four o’clock in the morning the party that went in search of the boat returned without her, when another party was sent at daylight. The captain saw the boat at a small distance from the vessel; weighed anchor and took her in tow, and made a signal for the whaleboat to come alongside. Dropped anchor, and after breakfast the captain and Mr. Grimes went on shore; they returned about one, and in the afternoon weighed anchor and dropped down to the Heads and took in the whaleboat.

The most eligible place for a settlement that I have seen is on the Freshwater River [Yarra]. In several places there are small tracts of good land, but they are without wood and water. I have every reason to think that there is not often so great a scarcity of water as at present from the appearance of the herbage. The country in general is excellent pasture and thin of timber, which is mostly low and crooked. In most places there is fine clay for bricks, and abundance of stone. I am of opinion that the timber is better both in quality and size further up the country, as I saw some what is called ash on the banks of the Freshwater River, and the hills appear to be clothed with wood. As to the quantity of good land at the different places, I shall be better able to describe when I am favored with a sight of a chart, as I have not been permitted to see one since I came out. There is great plenty of fish in Port King. The country in general is newly burnt.

Sunday, 27th.—Anchor up at sunrise; cleared the Heads between seven and eight o’clock; about one off Western Port; a fine breeze in the afternoon.

Monday, 28th.—The breeze continued all night. This morning saw Wilson’s Promontory, Rock Dunder (Rochando), Curtis’s Island, with several small islands. A fine breeze all the day; at night out of sight of land.

Tuesday, March 1st.—A calm in the morning; about noon saw land from the mast-head, supposed to be Point Hicks. Contrary wind all day.

Wednesday, 2nd.—In the morning saw Ram’s Head. The shore from Point Hicks to Ram’s Head is sand hills, further inland high hills covered with timber. The wind continued at north-east, and soon after twelve lay to, there being a wind and sea; out of sight of land at dusk.

Thursday, 3rd.—The wind abated in the night. At sunrise opposite to the shore we were at when the vessel lay to; a calm hazy day; could see little of the shore.

Friday, 4th.—About eight o’clock the wind shifted to the south; in the afternoon a fine breeze from south-west. Day hazy. This day Mr. Robbins called me down to the cabin to acquaint Mr. Grimes with the quality of the land and timber in Port King. I looked over the chart and had a glance of the chart of King’s Island.

Saturday, 5th.—A fine southerly breeze at daylight; going four and a half knots, increased to five and a half. Saw no land this day; thunder and some rain in the evening.

Sunday, 6th.—A hazy morning; wind at south. About ten o’clock saw land, Cape St. George, lat. 35° 21’. At three o’clock opposite to Jervis Bay; the land high at the heads of the bay, a small island at the entrance.

Monday, 7th.—At daylight the heads of Port Jervis bearing southerly about seven or eight leagues; the land is high to Port Hacking, where it is low; at six o’clock abreast of Botany Bay; at eight abreast of the Flagstaff, and at half-past ten anchored in Sydney Cove.
GENERAL AND GARRISON ORDERS BY DAVID COLLINS, ESQ., LIEUT.-COL.  
ROYAL MARINES, LIEUT-GOVERNOR OF PORT PHILLIP.  

(From 16th October 1803, to 20th February 1804.)  

Sullivan Bay, [Port Phillip], 16th Oct. 1803.  

General Orders.  
The Commissary is directed to issue, until further orders, the following ration weekly:—  
To civil, military, and free settlers—beef, 7 lbs.; or pork, 4 lbs.; biscuit, 7 lbs.; flour, 1 lb.;  
sugar, 6 ozs. To women, two-thirds; children, above 5 years, half; and children, under 5 years,  
quarter of the above ration.  
A copper will be immediately erected for the convenience of cooking, and persons appointed  
to dress the provisions, which are to be ready every day at twelve o'clock. The orderly drum every day at one.  
Half a pint of spirits is allowed to the military daily.  

Garrison Orders.  
A guard, consisting of 1 sergt., 1 corp., and 12 privates, will mount daily in front of the  
military encampment. Officers for duty this day, 1st Lt. Johnson; to-morrow, 2nd Lt. Lord.  
The centinels at the different posts will be at all times vigilant and careful to preserve  
regularity and peace and good order. After the beating of the taptoo, they are not to allow any (the night  
watch which will be appointed excepted) to pass without the countersign. All prisoners taken  
during the night are to be sent to the quarter guard. The centinels at the landing place will not  
suffer any spirituous liquors to be landed at, or near their post, without a written permit signed by  
the Lieut.-Governor, and they are not to prevent any military or civil officer, or free settler, from  
going into a boat, or on board of ships at anchor in the harbour, but other persons, if employed by  
an officer, are to produce a pass, signed by the officer, which is to be given to the centinel, and by  
him to be delivered to the sergt. of the guard. The greatest attention is to be paid to this order.  
The morning parade will beat at nine o'clock, the evening at sunset. Taptoo will be beat at nine  
o'clock. The orderly drum every day at one.  

Sullivan Bay, 17th October 1803.  

General Orders.  
The following working hours are established until further orders: From sunrise in the  
morning (at which time the drum will beat) until noon (excepting half an hour at eight), and from  
one o'clock until sunset, at which time the people, wherever employed, will bring in their tools,  
and deposit them under the inspection of the superintendents and overseers, in such places as they  
shall point out.  

Garrison Orders.  
The officer of the day will occasionally visit the working parties, and report what he may  
there observe to the Governor. The centinels at the store tents is, upon no account whatever, to  
permit anyone but the Commissary, and the persons immediately employed under him, to enter  
therein (the Lieut.-Governor excepted). This is to be a standing order which is never to be  
disobeyed. The centinels at the landing place are at all times to preserve regularity while the  
stores are delivering. They are not to allow any stragglers near their post, and only such as may  
be under the direction of an overseer. The Commanding Officer is pleased to appoint 1st Lt.  
Sladden to do the duty of Adjutant, and 1st Lt. Johnson that of Quarter-master to the detachment,  
until further orders. Officers for duty this day, 2nd Lt. Lord; for to-morrow, 1st Lt. Johnson.  

Sullivan Bay, 18th Oct. 1803.  

General Orders.  
Parole—Port Jackson. C. Sign—King.  
The settlers and prisoners are not to make fires near the encampment, but in such places as  
will be pointed out to them by Lt. Johnson; the tents being all pitched, an accident happening  
unto one, it could not be replaced. The centinels have orders to stop all prisoners found out of  
their tents after 9 o'clock at night, and bring them to the quarter guard. Mr. John Ingle is  
appointed inspector of public mechanics and artificers, until further orders.
Garrison Orders.

The Lt.-Colonel on taking command of the detachment of Royal Marines, landed at Port Phillip, entertains a hope that they will all feel a just sense of the honorable situation in which they are placed. They have been selected by their Sovereign to compose the garrison for the protection of this infant settlement. He trusts this will stimulate them to use their best exertions, and enable the Lt.-Colonel to report to the Secretary of State that such a trust has not been unworthily placed in them. He hopes they all know that obedience to orders, sobriety, and cleanliness, form the essential points in the character of a good soldier. While he observes that these are attended to, he shall feel a pride in having them under his command, and shall hold it his duty, by every means in his power, to render their situation comfortable. He is unwilling to mention the word punishment, but it is necessary they should know his firm determination to have the strictest obedience paid to such orders as he may think proper to give from time to time for their regulation, and trusts that when at a future period this shall be joined by other detachments of their brave comrades, he shall be able with pleasure to hold up this small band as an example worthy their imitation. The officer of the day will have the charge of the guards, and once during the night will go the visiting rounds. A patrol of a corpor and two privates will occasionally, between the relief of the sentinels, go round the encampment and take up all persons that they may find after the tattoo has beat, and bring them to the quarter guard. The detachment off duty will parade for drill at seven o'clock; every morning at seven o'clock (Sundays excepted), if the weather will admit. The civil and military officers wanting the countersign may have it on application to Lt. Sladden. The quarter guard to be augmented by three privates to-morrow; the additional sentinels are for the preservation of two water casks at the watering place, which are appropriated solely to the use of the civil and military establishment.

The presence of the officer of the day being at all times indispensably requisite in the camp, he is not, on any pretence, to quit it without the knowledge of the Commanding Officer. The comfort and appearance of the military depending much upon their cleanliness, The Right Honourable the Lords Commissioners of the Admiralty were pleased to admit a certain number of women to accompany their husbands on the present expedition, for the purpose of contributing to that end, by washing for the detachment. The Commanding Officer therefore directs and appoints the following women to be so employed, and in the following manner, namely:—The wife of William Bean, pte., to wash for fifteen persons; the wife of George Carley, pte., to wash for fifteen persons; the wife of James Spooner, to wash for fourteen persons; and as an ample supply of
necessaries has been sent out with the detachment, he will not admit of any excuse for their appearing in a dirty, unsoldierlike manner, discreditable to themselves and to the corps to which they belong. The different packages and cases in which the marine stores and clothing are contained, are not, on any account, when emptied, to be destroyed or converted to any other use without the approbation of the Commanding Officer. Sullivan Bay, 30th Oct. 1803.

General Orders.
The Lieut.-Governor thinks it necessary to inform the people that the clothing which was issued to them this morning is to serve them for the ensuing six months (the article of shoes excepted), and that until the expiration of that time no more will be issued to them on any account. It therefore becomes the duty of every man that regards his own comforts to take the utmost care of his clothing, and the Lt.-Governor expects that they will be at all times ready to produce them when he shall call upon them for that purpose. He has remarked that several of the tents are much dirtied and blackened at the entrance; as others are clean; this must proceed from the dirtiness of the persons themselves who live in them. He therefore gives this notice, that the next tent which he finds in that state will be instantly taken away and sent to the public stores. The overseers will attend to this order, and see that no dirt or rubbish is left in the streets of the encampment.

The Lieut.-Governor is concerned to learn that six men have been so blind to their own welfare, as to absent themselves from the settlement, and proceed in the desperate undertaking of travelling round to Port Jackson. If such is actually the motive of their absenting themselves, they must inevitably be lost in the attempt, and nothing more will ever be heard of them, for, independent of the risk they run of being killed by the natives, it is impossible for them with any quantity of provisions they could carry, to endure the fatigue of penetrating a thousand miles through the woods of this country, for such would be the distance, which by rounding the heads of the different harbours that present themselves in their route, they would have to travel. Although caution to them is now useless, yet it may not prove so to those who remain. He therefore takes this occasion of informing them, that while admitting the probability of their succeeding and reaching Port Jackson alive, they would instantly be apprehended, and sent back to this settlement by the Governor, here to meet the punishment justly due to their rashness and offence. Samuel Lightfoot is appointed an assistant in the general hospital. A watch bell being erected, it will ring at the following hours, viz.—At six o'clock in the morning, when the convicts will turn out for work; at eight, when they will leave off for half an hour; at twelve, when they will again leave off work; at one, when they will again return to work; again at four, and at seven when they will leave off work. General Orders.
Sullivan Bay, 21st Nov. 1803.
The Lieut.-Governor having received such information from the commander of His Majesty's ship Calcutta as leads him to suppose that a large body of natives is at no very great distance from the settlement; and as it is very doubtful for what may be their motive for coming on this side of Arthur's Seat, he thinks it necessary to caution the convicts and other persons against going in that direction any distance along the beach in search of fish in their leisure hours. He hopes that the punishment inflicted on Thursday last on the five delinquents who had absconded will have its weight with all those who witnessed it. If any should still intend to quit the settlement in the same manner, he will call to their observation the wretched appearance of Hangan and his two associates, who returned to their duty on Friday night, by whose account they will find that when engaged in a perilous undertaking of that nature they cannot trust even one another, these people all declaring that while they were sent to procure water for the whole party those who remained took that opportunity of absconding with the provisions—which they had left in their care, perfectly indifferent as to what might prove their fate. Such treachery must excite the honest indignation of every well-disposed mind, and the Lieut.-Governor thinks that that alone should be sufficient to deter others from associating in so rash and hazardous an enterprise. If they imagine that the masters of ships in quitting this port will receive any persons on board without the Lieut.-Governor's licence, let them be undeceived by his assurance that the owners and masters of ships sent out to this country are bound by their charter parties to Government in such heavy penalties, if known to take away one individual without a certificate that he has permission to do so, that it cannot be their interest to incur the forfeiture of them. He therefore hopes that he shall not hear any more of absconding from the settlement.

It having been mentioned to the Lt.-Governor, that many of the people not advertting to the consequences, are daily bringing birds' nests into the encampment, containing either eggs, or young un fledged birds. He thinks it necessary to prohibit a practice at once so cruel and destructive: any person found offending against this order will be punished. It appearing by the proceedings of a Court-martial, held yesterday, that two of the convicts, and one of their wives had purchased articles from a soldier belonging to the detachment of Royal Marines, the Lieutenant-Governor informs them that they are not to have any dealings or transactions whatsoever, with the military, who have not anything of their own to dispose of, and assures them that he shall always consider the purchasers of such articles as greater offenders than the sellers, and deal with them accordingly.

The sentinel at the battery will, on perceiving a boat proceeding round the eastern point of the bay, immediately acquaint the officer of the guard therewith, who will communicate the same to the Lieut.-Governor. The commander of His Majesty's ship, the Calcutta, having signified to the Lt.-Governor his intention of sailing for Port Jackson, on Sunday next, the detachment of Royal Marines belonging to that ship, at present doing duty in this settlement, will be returned to her to-morrow. The Lt.-Governor feels a pleasure in saying that, during the time they have been under his orders, they have conducted themselves in every respect like good soldiers, and he regrets that the present situation of public affairs will not admit of his making any requisition for their being annexed to the detachment of the same corps now on service in the colony, which it was his intention to have done. He is also much gratified in being able to mark with his approbation, and hold up as an example the merit of their fellow-prisoners the meritorious conduct of John Rawlinson, Urias Allender, Christopher Forshas, Wm. Thomas, James Price, and David Wakefield, which since their return from Port Jackson has been reported to him by Mr. Collins, who had the charge of the boat in which they were employed. They may rest assured that he will not lose sight of the service which so creditably to themselves they have performed.

Garrison Orders.
The detachment of Royal marines belonging to His Majesty's ship, Calcutta, will be ready to re-embark on board that ship to-morrow.
The morning drill will, until further orders, commence at six in the morning, and in the afternoon at half-past one.

The Commissary will immediately make a return to the Lieut.-Governor of the numbers of all descriptions of people in the colony, distinguishing them as civil, military, free settlers, free women, and prisoners, in order to enable him to make a distribution of them for the first embarkation in the Ocean transport for Van Dieman's Land.
The master of that ship having having informed the Lieut.-Governor that he shall be ready to receive the cargo on Friday morning, Mr. Clark, the superintendent, will select two able gangs of fifteen men each, under the overseers Joseph Meyers and John Whitehead, who are to attend every day at the store and the jetty, and assist in removing the provisions, &c., to the boats. The Commissary will make such preparations at the store as will prevent any delay occurring in the removal of the various articles under his charge. Mr. Ingle will attend at the beach, and take the utmost care that none of the bale goods, dry provisions, or cases of tools and ironmongery receive any damage by the water. The superintendent, Patterson, will attend at the stores and direct the gang placed there. The Lieut.-Governor expects to see the same regularity and order preserved in these gangs that he noticed while the ships were unloading. All tools that are in the possession of individuals are to be forthwith sent to the public store, in order to their being packed up. The Commissary will issue to each person in the settlement (women and children excepted, to whom he will serve only the usual proportion), one pound of raisins on the provision day next before Christmas, on which day Divine service will be performed in the forenoon, if the weather permits.

Garrison Orders.

The quartermaster will take the necessary measures for having the stores in his charge ready for embarkation when called upon for that purpose. He will number or otherwise mark all the marquees and tents at present occupied by the detachment, in order to their possessing the same again wherever they may be landed. Detail for duty.

A daring robbery having been committed on Sunday morning in the Commissary's tent, and the sick having been at the same time meanly plundered of their provisions in their tents by some person or persons at present unknown, the Lieut.-Governor calls upon all the well-disposed persons in the settlement to aid and assist in bringing the offender or offenders to justice; and he is hereby pleased to promise to procure from His Excellency the Governor-in-Chief a conditional pardon for any prisoner who shall bring forward and prosecute to conviction any person or persons who have been guilty of these outrages. The Lieut.-Governor, in the most positive manner, forbids the prisoners from going to the sea shore after crayfish between sunset and sunrise; and as they will in future be regularly mustered during the night, any person found absent from his tent will
be severely punished, unless he can satisfactorily account for such offence. The following persons are established as a night watch and patrol until further orders. They will apprehend and lodge in the quarter-guard all such suspicious persons whom they may meet between the above-mentioned hours; the principal of the watch reporting in the morning his proceedings during the night to the Revd. Mr. Knopwood:—Wm. Thomas Stocker, Principal; John Sculler, Patk. McCarty, James Taylor, John Flinders. It is recommended to the prisoners to be careful in securing their provisions from depredation during the night, as no loss so occasioned can in future be made good from the stores. The surgeon will furnish a return of the expenditure of medicines and hospital stores and of the actual number of persons who have been under medical treatment from the day of our landing to the 31st instant, both inclusive. The Commissary will also make a return of the quantity of provisions and clothing issued by him within the above period.

Garrison Orders.

The persons of those who are appointed as a watch during night by the General Orders of this day being well known to the sentinels they will, on challenging them and being answered "Night watch," not demand the countersign, but let them pass on, being satisfied that they are the persons so appointed, and the sentinel and guard will at all times give them such assistance as they may require for the apprehension of offenders. The sentence of the Court Martial held this day will be put in execution to-morrow morning at six o'clock.

The Commissary will issue the provisions to the prisoners (such persons only excepted as the Lieut.-Governor may point out) daily until further orders; the serving hour to be at seven o'clock in the evening, when the people leave off work. This measure is adopted to prevent their being robbed at any time of a quantity of provisions, of which they would feel the loss.

The Lieut.-Governor is under the necessity of directing that the business of loading the Ocean be not suspended until that is completed. The people will therefore work the remainder of this day and Sunday. It has never been his wish to make that day any other than a day of devotion and rest, but circumstances compel him to employ it in labor. In this the whole are concerned, since the sooner we are enabled to leave this unpromising and unproductive country the sooner shall we be able to reap the advantages and enjoy the comforts of a more fertile spot, and, as the winter season will soon be far distant, there-will not be too much time before us wherein to erect more comfortable dwellings for every one than the thin canvass coverings which we are now under, and which are every day growing worse. Several people applying to him daily for shoes, he informs them that on the arrival of the whole at the new settlement shoes shall be served out to all those who have not lately been supplied with new ones, and advises them to take care of those they have now got, not wearing them until they are past mending, which some of them have done. He cannot but pity the delusion which some of the prisoners labour under, in thinking that they can exist when deprived of the assistance of Government. Their madness will be manifest to themselves when they shall feel, too late, that they have wrought their own ruin. After those who have absconded he shall make no further search, certain that they must soon return or perish by famine.

The arms belonging to the detachment being frequently in want of repair, which can alone proceed from the carelessness of the men, the Commanding Officer forbids their being taken to pieces for the purpose of cleaning, but by the consent of the officer under whose inspection they are placed, and in the presence of a non-commissioned officer, who will take care that no part of the arms is unnecessarily removed. These are to be kept at all times ready for service, and he is certain that if this order is strictly attended to the arms will not be in such frequent want of repair; and he shall in future direct stoppages to be made for the repair of such arms as shall appear to him to have been damaged by carelessness; nor are they on any account to be taken out or used but on duty. He is concerned to observe that some of the non-commissioned officers...
are so extremely inattentive to their duty as to bring the men to the parade in a slovenly and unsoldierlike state. It is their peculiar duty to inspect the men on the beating of the quarter-drum, and to report them to the officer of the company when they find their appearance to be unmilitary. He should feel much regret at bringing a non-commissioned officer to a court-martial, but as the service cannot be carried on without they attend to their duty, so shall he feel it his to have only good and attentive men in that very useful class of soldiers. It is again ordered that none of the detachment off duty quit the camp without having first obtained leave from the officer of the company to which they are classed.

The Lieut.-Governor hopes the return of Danl. McAllenon will have convinced the prisoners of the misery that must ever attend those who are mad enough to abscond from the settlement. To warn them from making an attempt of a similar nature they are informed that, although this man left his companions on the fifth day after their departure hence, they all began to feel the effects of their imprudence, and more of them would have returned had they not dreaded the punishment which they were conscious they deserved. Their provisions were nearly expended, and they had no resources. They lived in constant dread of the natives, by whose hands it is more than probable they have by this time perished, or if this should not have happened, how is it possible that strong hardy men who were always able to consume even more than the liberal allowance of provisions which is issued to them, can exist in a country which nowhere affords a supply to the traveller. The Lieut.-Governor can by no means account for this strange desertion of the people; were they ill-treated, scantily fed, badly clothed, or wrought beyond their ability, he should attribute it to these causes, but as the reverse is the case, he is at a loss to discover the motive. He thinks it necessary to advise them not to harbour or supply with their provisions any people who may quit the settlement, as it is his fixed determination to punish them with greater severity than lie who would the infatuated wretches themselves. He is concerned that the several prisoners who are now absent must be left to perish, as by McAllenon's account they are beyond the reach of every effort he might make to recall them to their duty. Divine service will be performed on Sunday next if the weather permits.

The whole number of prisoners embarked in the Ocean (the officers' servants excepted) will be distributed into three divisions, one of which will be upon deck at a time in the same manner as seamen are divided into watches, and for the same period of time. The several overseers who are with the people will see that the watches are regularly relieved; and the watch or division upon deck, during either day or night, must not upon any account go below until relieved. They will at all times give such assistance towards carrying on the duty of the ship as may be required of them by Captain Mertho, or any of his officers. The division which is upon deck during the morning watch will wash and clean themselves upon the forecastle, and as these several regulations are calculated for their health and convenience the Governor expects a due observance of them. The three men who were on board, late belonging to the 25th Foot, will be classed one to each watch, and will perform the same duty which they were entrusted with at Sullivan Bay.

Half-past 1, crossed the Bridge (a very dangerous passage). At 5 do. wr. Half-past 5, observed a fringe laying at anchor off Weymouth. Capt. W. and Coll. Collin in the ward room with the officers.

Thursday, 28. Wind N.E. by N. A.M.—At 9 spoke a French fishing boat and got some Mackerel. At 10 hove too; sent a boat on board the ship Bomen, from Biddiford bound to London. At noon the Lizard Light House N. 3 lgs. P.M.—Fresh breeze and clear. At 7 we took our departure from England, the St. Agnes or Scilly Light House N.N.E. 4 E. about 5 lgs. dist. Several strange sail in sight.

Friday, 29. Wind N. b. W. A.M.—Fresh breeze and cloudy. At 10 observed 1 strange sail in sight. P.M.—Do. wr. The Ocean in company.

Saturday, 30. Wind N. b. W. A.M.—Fresh breeze and cloudy, with a swell from the north. P.M.—At 6 spoke the Ocean; at 10 squally and a heavy swell.

Sunday, 1 May. Wind N. b. W. A.M.—Fresh breeze and cloudy. At 6 saw a brig to windward; 10, mustered at quarters; a very high sea and squally. P.M.—Do. wr. At half-past 10 burnt a blue light to the Ocean; at 12 fired a gun and burnt another light; a very heavy swell from the N.W.

Monday, 2. Wind S.W. A.M.—Three-quarters past 2, strong gales and squally, with a heavy sea from the N.W. At 6 down top-glt. yards. At 10 observed the Ocean to the leeward. At half-past bore down to her. P.M.—Half-past 3 very strong breezes and squally. At 4 showed our colours to a French ship standing to the N.E. At 5 a heavy swell, the sea so high and the motion so great that chief of the officers were obliged to sleep in the ward room; the dead-lights to the cabins were obliged to be put in. At 5 very heavy seas following the ship.

Tuesday, 3. Wind S.W. by W. A.M.—At 4 strong gales, with a heavy swell and rain. At noon strong breezes and cloudy. P.M.—Do. wr. At 7 more moderate; no cabin windows open to day. At half-past 10 departed this live, Ann Stoker, a convict’s wife.

Wednesday, 4. Wind N.N.W. A.M.—Fresh breeze and a heavy swell from the northward. P.M.—10 minutes past 4, committed the body of Ann Stoker to the deep. Half-past 5, observed a ship and brig to the leeward; the cabin windows open this day.

Thursday, 5. A.M.—Moderate breezes; at 10 2 strange sail in sight. Half-past 10, departed this life John Thomas, a convict. P.M.—At 2 committed the body to the deep.

Friday, 6. Wind N.N.E. A.M.—Fresh breezes and cloudy; 11, saw a strange sail; a large ship to the N.W. P.M.—At 4 a Danish ship passed us; we shewed each others colours. At 8 more moderate and clear.

Sunday, 8. Wind N.N.E. A.M.—Light breezes and clear wr. At 10 mustered by divisions. Half-past, performed divine service to all the convicts (304), besides their wives and children, and the ship’s company. Capt. Woodriff, Col. Collins, and all the officers in full uniform on the quarter deck. P.M.—Do. wr.

Monday, 9. Wind N.E. b. E. A.M.—Light airs and clear wr.; caught 3 hork bill turtles. P.M.—Do. wr., inclining to a calm; gave the turtle to the sick convicts.

Tuesday, 10. Wind N.E. A.M.—Light airs inclining to a calm. P.M.—Caught 2 turtle.

Wednesday, 11. Wind N.E. A.M.—At 6 a calm; at 9 do. wr.; at 10 exercised the marines with cartridge. P.M.—Do. wr.; at 8 this day we caught 14 turtle as before.

1 Wr., for weather; morn., for morning; aft., for afternoon; eve., for evening.
Thursday, 12. Wind bkle. A.M.—A calm, and clear. P.M.—At 11 sprung up a breeze.

Friday, 13. Wind N. by W. A.M.—Light airs and fine wt.; sailmakers employed making awnings. P.M.—Employed variously.

Saturday, 14. A.M.—Light airs and clear. At 4 p.m. a calm. Half-past 7 sprung up a breeze from the S.W. This eve. at 6 we observed a very fine steady breeze come—the trade winds.

Sunday, 15. Wind N.W. A.M.—Fresh breezes 30 minutes past 9. We passed a brig standing to the eastward at 10. Mustered at quarters. Quarter-past performed Divine Service, as before. At half-past 11 saw the high Peak of Teneriffe at 15 lgs. dist., S.W. by W. At 1 p.m. the N.E. point of land dist. at 12 lgs.; the snow was very plain upon the Peak. At 9 we were very near the S.E. point of land.

Monday, 16. Wind E.S.E., at 8 bkle, half-past 8 N.E. A.M.—At 7 light airs and variable, standing for Santa Cruz Roads, bearing west 8 or 9 miles. At 8 a whole past very near the stern of the Calcutta. At 9 a boat from the Town of Santa Cruz was sent on board the Port Captain, a Spanish officer, came on board. Lady 10 he went on shore. At 11, Capt. Woodriff and Col. Collins went to the Governors House, &c. Don Joseph de Purlesaque, Governor General of the Canary Islands, and a Lieut.-General in the Spanish Service. P.M.—At 1 came to an anchor in Santa Cruz Roads with the best bower, when moord ship in 16 fthm. with the following bearings—East point of land E. by N. by N. 2/3 N.; south point of Santa Cruz Bay, with the south east of the Island S.W. 1/2 S.; northern church spire W. 1/2 S.; north round tower in the bay on with the high peak near do.; likewise the boundary of the bay N. by E. The pier head on with the southernmost church spire bearing S.W. by W. off the shore 1/4 a mile. Found riding in the bay a Spanish man of war brig and many merchant ships. At 2, Capt. W. and Col. Collins returned on board.

Monday, 16. At 3 the Ocean came to an anchor. At 5 Capt Woodriff, Col. Collins and self went on shore to Mr. Armstrong’s, the British Agent, &c., &c. He lives as you enter the town on the right, the landing place was surrounded being bordered by a stone pier, with steps, alongside of which two boats at a time may lay with ease and take in their fresh water, which comes down by a tank from the town. We landed on the very place where Lord Nelson lost his arm, it appeared to have fallen nearly into a state of ruin. There were several pieces of cannon by the side; but none mounted. They were repairing it before we came away. From the pier you enter the town by a gate at which stands a guard; to the left is a large church, the S.E. part of which is situated on an island of the same name near the coast.—(Here it was that the British Seamen and Marines were repulsed when they attacked Santa Cruz with Lord Nelson.)

In the centre of this street was a stone bason and fountain. (Here it was the British Seamen and Marines were repulsed when they attacked Santa Cruz with Lord Nelson, from which the inhabitants were supplied with very good water, conveyed from the neighbouring hills by wooden troughs, supported on slight posts and reaching quite to the town. At the head of the street, near the Government House or Requisition, stood a large Cross; and at a small distance the Governor’s House and the Church of St. Francis; annexed was a monastery of Franciscans. At this church we saw a grand funeral of one of the Franciscans, the corpse was carried on a bier, the face and feet exposed, they were a long time performing burial service; and when they deposited the body in the grave, which is first prepared with a coffin to receive it, is let down by fillets, and a paul covered over, to prevent your seeing a quantity of lime thrown on the face and body. We were informed that the body remained in the grave, which is first prepared with a coffin that bore all the appearance of cinders. The new roads that they are making to Bonavista is broad and good. They were cutting the barley and Indian wheat, both of which were good crops. The sea breezes generally sets in about 10 from the N.E. side of the island and blows to S. or S.W. in the eve. Frequently there is a tremendous surge at the pier, when the wind is at east, that it is not possible to land. The land breeze sets in from the W. which continues till 7 or 8 in the morn. The altitude of the Peak itself we were informed, was 15,590 feet, only 148 yards short of 3 miles.

The Peak of Teneriffe, which the Dutch make their first meridian is said to be three miles high, in the form of a sugar loaf, and is situated on an island of the same name near the coast.—Vide Guthrie. Geog., page 659.

Tuesday, 17. A.M.—Employed variously. P.M.—Fresh breezes and clear. I went to see the town and the church, Nostra Seniora de Consion. At 3 returned on board. We caught a great number of mackrell on board. 5 Spanish officers from the Man of War brig dined with us.
Wednesday, 18. Wind vble. N.E. a.m.—Fresh breezes and hazy. At 11 the Spanish Man of War brig left the Bay. We turned up our hands and gave them three cheers; they returnd it. p.m.—I went on shore and into the fields, which appeared very bad land. They cut the corn with a sickle, than place it upon a large round of stones, where it lays some days, than take it to the store houses in the town. The Governor's daughter, Mr. and Mrs. Armstrong and family, with the harbour-captain, drank tea with Capt. Woodriff; they were very much pleas'd with the ship. At 6 they went on shore.

Thursday, 19. a.m.—Moderate breezes. p.m.—Prepared for sailing. This being the great Festival of Assencion, the Spanish flags were hoisted on all the forts and the ships in the bay. At 10 I went on shore with Capt. Woodriff, Mr. Tuckey, and some officers, to see High Mass perform'd, first at the Church at St. Francis. They then went to the Great Church, Nostra Seniura de Consun, where the High Mass was perform'd, and all the principal inhabitants attended at the alter, which was highly decorated; in this church were two small British flags, which were taken when Ld. Nelson attacked Santa Cruz in 1799. The man who shew: the church was particular in telling us of the bravery of their troops, and of the colours being taken. One of our officers observed to him that they were very right in taking such great care of them, for that Lord Nelson very likely would call for them again soon.—Mr. Wright, Massiter (?)

Friday, 20. Wind E.N.E., N.E. a.m.—At 8 made the signal with a gun for all officers to repair on board. Employ'd getting ready for sea. p.m.—20 past 2, weigh'd and made all sail, the Ocean in company. At 4 Santa Cruz N. by E. 12 miles. At 6 the Mountain Peak W.N.W. ½ N. 5 lgs. We see the Peak this eve. at very high perfection.

Saturday, 21. a.m.—At 4 fresh breezes. Employ'd stowing the anchors. p.m.—Do. wt. and clear.

Sunday, 22. a.m.—Steady fresh breezes and clear. At 10 must. (mustered) by divisions; half-past perform'd Divine service, all on deck. p.m.—At 2 we passed the Tropic of Cancer. Lat. observed 26°10' N. Long. 17°17' W.

Monday, 23. Wind N.E. b. E. a.m.—At 9 steady fresh breezes and clear. p.m.—do. wt. At 6 with a swell from the N.E.

Tuesday, 24. a.m.—Fresh breezes and clear. p.m.—do. wt. At 6 observ'd a brig standing to the northward.

Wednesday, 25. Wind S.W. b. S. a.m.—At 7 saw the Island of Sal, and made the signal to the Ocean for land discovered. A very remarkable high mount, bearing S. by W. ½ W. At 12 Point of Sal, ½ N. 3 lgs. Moderate and fine wt.

[A sketch of the Isle of Sal, from H.M. Ship Calcutta, May 25, 1803, bearing E. by S. ½ S.]

Thursday, 26. Wind S.W. b. S. a.m.—Half-past 6, S.E. point of St. Jago, W.S.W. Island of Mayo, east. At 7 stood close round the east point of Praya Bay. At 30-past 7 bore up, flagstaff at first N. by E. 2 or 3 miles; east point of Praya Bay, on with the Peak of Island Fugo. West. p.m.—Moderate and clear. The evenings are dark at half-after 6.

A sketch of the Island of St. Jago and Praya Bay.

St. Jago is inhabited by the Portuguese, the largest, most populous, and most fertile of the Cape de Verd Islands in Africa. It lies 13 miles west of Mayo, and abounds with high craggy mountains, particularly on the left of the town. Here are stock birds, and fruit of all kinds, and very cheap. The Flagstaff and Governor's House are situated on the S.E. side of the harbour, which has a long train of battery by the side of the hill. The houses are very small. We observ'd a large convent from the town. Before the town is a small island call'd Quails.

Fugo.

One of the Cape de Verd Islands, in the Atlantic Ocean. It is a volcano, and burns continually. You see it very plain from St. Jago. It is much higher than any of the other mountains, and seems to be a single one at sea. The Portuguese who first inhabited it brought negroes with them, and a stock of cattle; but now the chief inhabitants are blacks, of the Romish religion.

Friday, 27. Wind N.E. a.m.—Moderate and hazy. p.m.—do. wt.

Saturday, 28. Wind N.N.E. a.m.—Light breezes, made and shortened sail occasionally. At half-past 11 read the articles of war to the ship's company, and punish'd Edward Westwood, a colonial marine, with twenty-four lashes for neglect of duty—sleeping on his post over the convicts. p.m.—Do. wt.

Note.—Between the entries of Thursday, the 26th of May, and that of the next day, two pages are left un written on, on one of which is given a curious sketch of Praya Bay, &c., and on the other a sketch map of the track of the Calcutta between the Cape de Verd islands. [C.]
Sunday, 29. Wind N.E. by N. A.M.—At daylight a brig in sight to the N.W.; light breezes and clear; at 10 mustered by divisions; half-past performed Divine Service. Whit Sunday I dined with Capt. Woodriffe, Col. Collins. P.M.—do. wr.

Monday, 30. Wind N.N.E. A.M.—Light breezes and clear. P.M.—2, do. wr.; at 8, continual lightning; 15 past 9, squally with rain and lightning.

Tuesday, 31. Wind S.E. by S. A.M.—At 4 light winds with rain and lightning; at daylight saw a sail S.E.; 15 past 8, spoke The Telegraph, belonging to the Honble. the East India Company; down jolly boat and sent an officer on board; we sent letters by her to England; she came from Bengal bound to England with dispatches; at 12, fresh breezes and heavy showers of rain. P.M.—Continual hard rain; at 7 more moderate.

Wednesday, 1 [June]. Wind S. by W. A.M.—At 7, light airs, inclining to a calm. P.M.—do. wr. Employed variously.

Thursday, 2. Wind S.E. by S. A.M.—Light airs and clear. P.M.—Employed variously, the Ocean in company.

Friday, 3. Wind S.W. by S. Ther. 83. A.M.—Moderate and clear; at 9, mustered the ship's company at quarters, and exercised the great guns and small arms; fired several shot. P.M.—At 4 light airs with rain; at 6 caught 2 dolphins.

Saturday, 4. Wind S.W. by S. Ther. 84. A.M.—At 9 moderate and clear; at 11 observed a very large waterspout to the north, dist. 4 miles; at half-past rain, with a fresh breeze. P.M.—Clear wr.

Sunday, 5. Wind S.E. A.M.—Fresh breezes; at 11, squally, with rain; at half-past 9 mustered at quarters; 10, heavy, dark weather, could not do duty to-day. P.M.—do. wr., clear at intervals.

Monday, 6. Wind S. A.M.—Moderate breezes; at 11, squally, with rain at intervals. P.M.—At 6 do. wr., with rain and lightning. In this latitude before you have the squalls in generally lightning before the rain, and it looks very awful.

Tuesday, 7. Wind S.E. A.M.—At 11 observed a strange sail to the S.W. steering northward; half-past squally, with a heavy swell and hard rain. P.M.—do. wr. at intervals.

Wednesday, 8. Wind S.E. by S. A.M.—Fresh breezes and cloudy; at noon, squally with rain. P.M.—At 5 saw a ship to the northward; show our colours to her.

Thursday, 9. Wind S.E. A.M.—Moderate breezes and clear. P.M.—At 2 saw a brig to the S.W. standing to the N. ward; at 4 t. kd. a strange sail S.E. by E.; 45 minutes past 4 set top g'nt. sails; 03 past 5 up courses and hove too, boarded the Emerelda, from the River Gabon (in Africa), bound to Liverpool with gold dust, ivory, &c., &c. Gabon River, the S.W. cost of Africa, is a large river that falls into the ocean from the eastward, within the island of St. Thomas, directly under line or the equator. At half-past 11 we crossed the equinoctial line or equator, lat. observed 35°.

Friday, 10. Wind W.E. by S. A.M.—Steady fresh breezes and clear; at 10 Old Neptune came on board. Such persons as had never crossed the line were compelled to undergo the ridiculous ceremonies of shaving, &c., which those who were privileged were allowed to perform. P.M.—The day was concluded with much mirth; at 3 moderate and clear wr.

Saturday, 11. Wind S.S.E. A.M.—Moderate breezes and cloudy; 30 past 10, saw a sail to the S.W., standing to the windward, set t. g'nt. sails. P.M.—do. wr.; at 1 shortend sail and boarded Rio Nova, from Africa to Demarara with 325 slaves, men and women; took three men out of the above ship for mutiny, and confined them; quarter before 3 in boat and made all sail; we got parrots, &c., from the ship; half-past 11, Mary Wiggins was delivered of a son, wife of a Colonial marine.

Sunday, 12. Wind S.E. A.M.—Steady fresh breezes, and clear; 30 past 9, mustered by divisions; 10 performed divine service to all the convicts, &c., &c., as before. P.M.—40 past 5 spoke the Ocean; enquired after the health of the people; was informed they were all well, but that Mr. Hartley, a settler, had behaved ill on board. The evenings are dark at 6, nor light till near 6 in the morn.

Tuesday, 14. A.M.—At 8 moderate and cloudy; at noon a fresh trade wind, with pleasant wr. P.M.—do. wr.

Wednesday, 15. Wind E.S.E. A.M.—Fresh breezes and cloudy; at 4 squally, with rain and lightning. P.M.—do. wr. at intervals.

Thursday, 16. A.M.—Moderate breezes. P.M.—do. wr.; employed variously, Ocean in company.

Friday, 17. Wind S.E. A.M.—Fresh breezes and cloudy. P.M.—do. wr.; employed variously and rounding the cables; at 10, squally with rain; a large ball of fire seen from the clouds.

* It is impossible to understand what these figures mean, the ship having crossed the line only half an hour before noon of this day; but possibly the next day's latitude, in minutes, written in the wrong entry, is intended by them. They are copied exactly. The Friday's entry, however, seems to prove that she did not cross the line on the 9th, so it may be Thursday's latitude, North. [C]
Saturday, 18. Wind S.E. A.M.—At 2, heavy squalls, with rain and lightning, and swell from the southward. P.M.—At 4 more moderate. It is dark so early that we are obliged to beat to quarters of an eve at half-pass 5.

Sunday, 19. Wind S.E. A.M.—Moderate breezes and cloudy; at 10 mustered the ship's company; half-past, performed divine service to all the convicts and ship's co. P.M.—do. wr. and clear; at 4 observed 7 whales about the ship.

Monday, 20. Wind S. b. E. A.M.—Moderate breezes and clear wr. P.M.—30 past 4, saw a ship in the S.W. standing to the windward; 30 past 7, the strange sail passed us to leeward.

Tuesday, 21. Wind S.E. b. S. A.M.—At daylight saw a brig to windward; at 9 observed a ship to the S.W. standing to the S. ward. P.M.—Light winds; shew our colours to the strange ship. In England the sun rises 88 minutes before 3, here not till a quarter after 6 in the mor.

Wednesday, 22. Wind S.E. b. E. A.M.—At 8, light breezes, with fine wr.; p.m. at 2, calm and clear; at 11, moderate breeze, with rain; half-pass, squally; in top g'nt. sails, down jib.

Friday, 24. Wind N. E. A.M.—Squally, with frequent showers. P.M.—Moderate breezes and cloudy.

Saturday, 25. A.M.—Fresh breezes, with frequent flashes of lightning at 2; at 5, rain and lightning, violent; 30 past 7 sounded, no ground, 90 fathom. P.M.—Squally, with rain.

Sunday, 26. A.M.—Fresh breezes and cloudy, with a high sea that we could not perform duty to-day. P.M.—Fresh breezes and cloudy with rain. At 10 past 10 we observed the the clearest night rainbow ever seen to the south; at 10 it was squally with rain. Lat. obsd. 22° 16' S., long. 38° 33' W.

Monday, 27. A.M.—At 4 fresh breezes and squally. P.M.—Moderate wr.; at 2 sounded in 35 fathom, fine sand, bent the lower bow'r cable. At 5, Cape Trio W. S.W. 1/2 S. about 6 leags.

Wed. 29. Wind E. by N. A.M.—At 4 light airs and cloudy. At 8 down jib; Cape Trio W. b. N. 1/2 N. about 6 or 7 leags. At noon Cape Trio E. b. N. 1/2 N. just in sight from the poop; entrance of Rio Janeiro Harbour W.N.W. distant off 4 leags.

H.M. Ship Calcutta, at anchor at Rio Janeiro, June 30, 1803, South America, 8th. Pacific Ocean.

Wed. 29. Wind E. b. N. P.M.—At 30 past 1 sprung up a breeze from the S.E.; made all possible sail for the harbour of Rio Janeiro. At 4 passed the outer islands; found Island Rondo and Flat Island of Rio Janeiro in one W.S.W.; Maya and Paya in one N.E. b. E. and S.W. b. W. At 6 passed Gamba Islk. At 7 a light breezes; Pahoon (the pilot) came on board and took charge of the ship. At 8 passed Santa Cruz Fort. At 30 past 9 came too with the best bow'r in 17 fathom, abreast the palace. Paternomore, the Harbour Master.

Thursday, 30. Wind varbl. A.M.—Light airs and variable; at daylight had the following bearings: Sugar Leaf S. b. E., spire of the Benedictine Convent West, Isle of Enchardos, on which is the ruins of a monastery, N.W. 1/4 W. Fort Santa Cruz S.E. 1/4 S., and a large white building on the opposite side of the harbour N.E. 1/4 E. Found here the Honble. Company's Ship Lord Castleavagh (Capt. Robinson) and an English whaler, a Portuguese line-of-battle ship and a number of merchantmen. P.M.—Do. wr. Mr. McDougall was the first mate in the Lady Cas, and very intimate with my friend Lient. Colin McDonald, Royal Navy. Lat. obsd. 22° 32' S.

Friday.—The Town of St. Sebastian (or as it is more commonly named the Town of Rio de Janeiro, which was in fact the name of the river forming the bay, on the western side of which was built the town) is large. The palace of the Viceroy stood in the Royal Square, of which, together with the public prison, the Mint and the Opera House, it formed the right wing. The Hospital, which had formerly been a Jesuit's Convent, stood near the summit of the hill at the back of the town. Senor Ildefonse (he was frequently with our party, and din'd with Capt. Woodrile, Col. Collins, Mr. Tuckey and self at John Rodriguers Pereson de Almeida; Mr. Mordant, lives at the same house). Senor Ildefonse was the principal surgeon in the place. He studied in England. The English surgeons are held in high reputation. The town of Rio de Janeiro was said to contain not less than 100,000 souls, of which 40,000 are slaves brought from the Coast of Ginnea. With these people of both sexes the streets are constantly fill'd, scarcely any other people being seen in the day. Ladies and gentlemen were never seen on foot in the streets during the day, those whose business led them out being carried in close chairs, the pole of which came from the head of the vehicle and rested on the shoulders of the chairman. The language spoken here by the white people was Portuguese. The ecclesiastics in general could converse in Latin—they
pronounce it very differently to the English pronunciation. The Negro slaves spoke a corrupt mixture of their own and Portuguese language. The town was well supplied with water, which was conveyed into it from a great distance by means of an aqueduct (or canal) which, having to cross a road or public way, was raised upon a double row of lofty arches; from this aqueduct the water was received into stone fountains, constructed with capacious basins; here the inhabitants have their linen washed by their slaves, near the Convent of the Antonian monks. We also observed several large and rich convents in the town. The chief of these were the Benedictine and the Carmelite; one dedicated to St. Antony, another to our Lady of Assistance, and another to Sta Theresa; the two last were for the reception of nuns. The Convent D. Adjuda, or of Assistance, received as pensioners, or boarders, the young ladies having lost their parents, who were allowed to remain, conforming to the rules of the convent, until married, or otherwise provided for by their friends. The whole of the churches are under a bishop, whose palace was in the town, a short distance from one of the principal convents (Benedictine). To a stranger nothing could appear more remarkable than the innumerable religious processions which were to be seen at all hours in this town. At the close of every day an image of the Virgin was borne in procession through the principal streets, the attendants arrayed in white surplices, and bearing in their hands lighted tapers, chanting at the same time praises to her in Latin; to this, as well as to all other religious processions, the guards turned out, grounded their arms, kneeled, and showed the most submissive marks of respect, and the bells of each church or convent in the vicinity of their progress sounded a peal while they were passing, and people assembled at their windows. Every church, chapel, or convent being under the auspices of some tutelary saint, particular days were set apart as the festival of each, which were opened with public prayers, and concluded with processions, music, and fireworks. During several hours after dark, on these solemn festivals, the inhabitants are seen decorated in their best habiliments, accompanied by their servants, children, and attended by their slaves and carriages. We were informed that they never permitted any base metals near their alters, all their vessels, &c., being of the purest gold or silver. At the corner of almost every street in the town was observed a small altar, dedicated generally to the Virgin, and decorated with curtains and lamps, before these alters, at the close of every evening, the Negroes assembled to chant their vespers, kneeling together in long rows in the street. The tradespeople of the town have adopted a regulation which must prove of infinite convenience to strangers as well as to the inhabitants; we found the people of one profession or trade dwelling together in one, two, or as many streets as were necessary for their number to occupy. Houses here were built, after the fashion of Santa Cruz, with a small wooden balcony over the entrance; to the eye accustomed to the cheerful appearance of glass windows a certain gloom seemed to pervade even their best and widest streets, the light being conveyed through window frames of close lattice-work. The women of Rio De Janeiro, being within the tropics, do not possess the best complexions, but their features were expressive: the eye dark and lively; the hair was dark; this they mostly wore with powder, strained to a high point before and tied in several folds behind. The men, the Crown of Portugal, and the government of this place, the great cause of jealousy both of strangers and the inhabitants, were situated more than a week's journey hence, except some which had been lately discovered in the mountains (the Organ Hills) near the town. Sufficient employment was found for the Mint, at which was struck all the coin that was current here besides what was sent to Europe. The diamond trade had been for some time taken into the hands and under the inspection of Government, but the jewellers' shops abounded with topazes, chrysolites, and other precious stones. The barracks for the troops appeared to be in a good order. A small number of manceuvres is always on duty, employed in the antichamber of the palace, or in attending the Viceroy either on days of parade or in his excursions into the country. A captain's guard of infantry with a standard mounted every day at the palace. The present Governor's name is Don Joseph Fernandez du Portugal—he had been Viceroy at Rio de Janeiro two years and a half. An officer from each regiment attended every evening at the palace to take orders for the following day, which were delivered to him by the Adjutant of Orders, who himself received them directly from the Viceroy. At the palace every transaction in the town was known, and so strict was the search for deserters from the ships, when reported to the guard at the palace, they were almost certain of getting the men by the next morn. In addition to the centinels, every regiment and every guard sent parties through the streets patrolling the whole night for the preservation of peace and good order. During our stay the wives of the convicts were allowed to take clothes to wash with them on the Island of Enchados, a small island with an old monastery on it to the W.N.W. of the town. The ladies and gentlemen we observed were continually walking of an evening quite late, especially when any of their festivals were. Both males and females were early taught to dress as men and women. We see a hoop on a little donna of four years old, and a bag and a sword on a sesnor of six. This appearance we observed as much as that of the saints and virgins in their churches being decorated with powdered perruques, swords, laced clothes, and full dressed suits. The Convent of Sta Theresa we were informed was the strictest of any; there were eighteen young people there which had taken the veil and they were not allowed to see any one but their nearest relations. The priests were not permitted to see them. The chapel was very neat, it stood upon the hill near the aqueduct. The Convent D. Adjuda.—This I frequently visited, where I conversed with a very beautiful young lady named Antonia Januaria. Her polite attention I shall not easily forget, having received great friendship from her, and should ever return there again shall be happy to see her. [The next page is left blank.]

H.M. Ship Calcutta at Sea, August, 1803.

Tuesday, 25. On our departure from the Cape it was naturally for us to indulge at this moment a melancholy reflection which obtruded itself upon the minds of those, who, we, settlers at Pt. Philip. The land behind us was the abode of a civilized people, that before us was the residence of savages. When, if ever, we might again enjoy the commerce of the world was doubtful and uncertain. The refreshments and the pleasures of which we had so liberally enjoyed, both at Cape and Simon's Bay were to be exchanged for coarse fare and hard labour at Pt. Philip, and we may truly say all communication with families and friends now cut off, we were leaving the world behind us to enter on a state unknown.

Sounded in 40 fathoms—coarse brown sand. At 5, saw the land about Port Phillip to the N. b. E. The land near the entrance of the harbour appeared low land, and at a distance very beautiful. Seal Island, S.E. 1/2 E., and Whales Point, W. b. S. (named so by Capt. Woodriff, the head being very much like one): it is on the larboard side as you enter the harbour. At 15 past 10 we anchored with the wind E. of it, and laying here the transport, which arrived on Friday the 7 of Oct. When moored ship we had the following bearings—The east side of the entrance West, and the east end of the long Island N.E. 1/2 E. off the south shore, 1 1/2 mile. A very fine country to appearance, but no water but salt lakes.

P.M.—Fresh breezes and clear wr. Employed clearing away the booms, &c. Out launch at 4. Moored ship with the small bower to the westward. Capt. Woodriff and Lieut. Governor Collins went on shore on the south side of the island. At 6 they returned. Could not find any fresh water. They reported the soil to be very bad, and the trees small, unfit for the use of H.M. Navy. The Bay is very large, more so than any I ever see, but the entrance does not exceed a mile and a half, though from the camp, S.W. to the N.E. of the Bay, it is not less than 80 miles to the fresh water lake. At 10 it blew a very hard gale of wind. It was very fortunate for us that we arrived at our destination in the morning. 12, do. wr., with very hard squalls.

H.M. ship Calcutta at Anchor in Port Phillip Harbour, New South Wales, October 1803.

Monday, 10. Wind S.S.E. A.M.—At 10, Lieut. Patteeshal, Mr. White, and self, went on the south side of the Bay, opposite the ship, and many miles in and round the opposite shore, but could not find any water but what was very brackish that we could not drink. The land was very bad, light soil, and a great many of the trees blown up by the roots, which appeared to have taken very little root. Not any of the natives did we see, but many huts, in which were cockle shells and muscle. We see a few birds, parrots and a couple of quails; not the least vestige of any quadrupedes or fish. Along the shore we returned by no means satisfied with the country. The Capt. and Governor went on shore and found no water that was good, but a small run near Arthurs Sent, the east side of the Bay. When we arrived here it was in the spring, the month of April 1803.

Tuesday, 11. Wind S.S.E. A.M.—The same party and self went on shore to the island in the middle of the Bay, now called Signet [Mud] Island, where we see a great number of black swans. I was the first that killd one on the island. We kill 3, and caught many alive, and caught many pelicans, and many sea birds. Capt. W. and the Gov., with Mr. Tuckey, went on the west side of the Bay to procure water. Could not find any. Three of the natives were friendly with them, and gave Mr. T. a spear. The island in by no means favourable, for want of soil, water, and trees. The difference of time with us and England is nine hours forty three minutes: we are so much forwarder than they are.

Wednesday, 12. Wind westly. A.M.—Fresh breeze and cloudy. Sent a party on shore cutting grass, and another watering. At 7, the Capt. and Col. Collins, and 1 Lieut., Mr. Tuckey, went to the northern part of the Bay to procure water, and see the same three natives. The Colony Surgeons report the water procured by sinking tube as wells to be good and fit for use. The Capt. gave one of the natives a blanket. They attended them some time. At 15, past 11, the Captain and officers returned, but found no water fit for use. Sent the carpenter and some men to look for wood on shore.

Thursday, 13. Wind S.W. A.M.—Fresh breeze and cloudy. Sent the small launch for water. The same party of officers went to survey the S.E. part of the Bay and watering place.

1 "The face of the country bordering on the port is beautifully picturesque, swelling into gentle elevations of the brightest verdure, and dotted with trees as if planted by the hand of taste, while the ground is covered with a profusion of flowers of every colour; in short, the external appearance of the country flattered us into the most delusive dreams of fruitfulness and plenty.

2 "The soil (except in a few places where marrl is found mixed with vegetable mould) is invariably sandy, and its blackness proceeds from the ashes of the burnt grass, which has everywhere been set fire to by the natives. The proportion of sand varies, and in some spots the soil may be sufficiently strong to produce vegetables, and perhaps Indian corn; but it may safely be asserted that (excepting a few acres at the head of the port) no spot within five miles of the water will produce wheat or any other grain that requires either much moisture or good soil. On some of the highest elevations an arid soil and sand is found, giving nourishment to no other vegetable than heath and fern. The basis of the hills consist of very coarse granite, which is here found in every stage of formation, from grains scarcely adhering, and crumbling into sand before the fingers, to the perfect stone, which almost defies the chisel."—[Tuckey, p. 167.]

3 This day died John Skilhorne, free settler. The first death. —Ed.

4 "I presume he means the equivalent of April of the northern hemisphere."—[C.]
The carpenter returned from on shore, where he had been to look for wood to secure the head and knees of the ship. Had not seen any fit for that purpose. At 15, past 1, confind Lieut. Donovan to his cabin pr order of Capt. Woodriff, for his being absent from the ship whilst he was on shore.

Friday, 14. Wind west, vble, calm. A.M.—Fresh breezes and cloudy weather. Sent the Master up the harbour to sound for a convenient place to remove the ship for delivering the colonial stores, &c. At 30, past 9 he returnd, and reported good anchorage 3 or 4 miles further to the eastward. At 10, cleared lower. Sent on there a party of the Colonial Marines, also convicts, with Lieut. Johnson, to pitch some tents. They carried the equipage and live stock.

P.M.—Light breezes with rain. At 30 past 1 unmooed ship and hove short on the small bower. Loosed the T. sail. At 15 past 2 weighd and made sail. At 30 past 3 light airs with rain. Found the tide too strong for the wind. Anchord in 13 fthms. with the small bower, west end of the long island, N.E. b. N., and the S.E. head of the entrance W. $\frac{1}{2}$ N., off the shore 1 mile & $\frac{1}{2}$ Calm at 4. The carpenter reports 2 of the planks in the counter started. Caulkers caulking the poop waterways. At 7 in the morn Mr. White and self went on shore on the south side of the Bay, and walked far into the country. We see the kangaroos and some parrots, but could not kill any. We walked to the watering place. The water through the casks was O'ood, and the report carried to the Governor. I dind at the mess with the officers. At 6 the convicts, with Lieut. Johnson, to pitch some tents.

Saturday, 15. Wind E.S.E. A.M.—Light breezes, inclining to a calm. At 30 past 8 hove short on the f. bower. Loosed sails. Ocean transport under weigh. At 9, weighd and made sail. Sounded from 6 to 18 fthms. At 15 past 10 crossed the shoal north of Point in 4 fthms. At 30 past 10 anchor'd in 7 fthms.; fine sand. At noon, strong breezes and cloudy; the O'ood not over. Employd dinking the colonial stores on shore. Where we lay we can see the camp, distance from us $\frac{4}{2}$ mile. P.M.—At 30 past 3 moord ship with the best bower to the westward, the camp bearing S.E. $\frac{1}{4}$ S., the entrance of the port west, and Seals Beach open, and Artthers Seat E. $\frac{1}{4}$ N. Nearest distance off shore 14 mile in 5 fathms water. Employd fitting the launch for surveying the harbour.

Sunday, 16. Wind S.E. A.M.—Moderate and clear weather. At 30 past 8 sent the launch with the first Lieut., Mr. Tuckey, attended by 2 civil officers, Mr. Harris, Mr. Collins, and 6 of the crew of the colony, and a 5 yard cutter, boyd and sended 8 days to survey the Bay from the camp northward. At 11, got to assertain any more eligable situation for forming a settlement. At 9, employed landing the convicts with their baggage. At 11, the Capt. and Colonial went on shore to direct the landing, &c., of the prisoners. P.M.—At 2, completed the landing of the marines and prisoners with their baggage.

Remarks in Sullivan Bay and Hobert Camp, Port Phillip, New South Wales, October 1803.

Monday, 17. Wind eastly. A.M.—Fine pleasant wr. Employd delivering the hospital stores. At 10 I went to the camp to see about my marque, and gave orders for its being completed for me. At 4 P.M. the Capt. and Colonial went on shore; the Colonial slept there for the first time. At 3 past 4 the Master returnd from surveying, and found a good channel in the E.N.E. direction. I remained on board as a visitor.

Tuesday, 18. A.M.—I remained on board till 10, then went on shore to the camp to order about my marque; returned on board to dine.

Wednesday, 19. A.M.—At 9 went on shore and sent all my things to the camp. Waited upon the Governor. At 11 got my things in order, and slept there for the first time. The convicts employd variously; many of the officers searching in the country for water and soil. P.M.—At night Lieut. Sladden confind Sargent Sargant for drunkeness and in conduct.

Thursday, 20. A.M.—At 9 Lieut. Menzies, of the Royal Marines, came to the camp to set at the court martial on the prisoner Sargent Sargant. At 11 the court commenced. At 2 P.M. it finished, and the report carried to the Governor. I dind at the mess with the officers. At 6 the officer of the R. Marines, Lieut. Sladden, red the sentence of the court martial, which was that Sargent Sargant be broke and put into the line as a private; but, on account of his prior good conduct, that he be recommended to the Governor, who reproved him and reinstated him.

Friday, 21. A.M.—At 50 past 7 the launch and cutter returnd from surveying the harbour, having last night arrived in the N.W. point of the bay, where they have discovered a straigh, an apparent passage towards the sea, which the first Lieut., Mr. Tuckey, intendd to have explored, but was driven to the southward during the night by a tide or current from the apparent straigh; and at daylight, finding himself near the ship, returnd on board. At 11 Capt. Woodriff and Lieut. Tuckey came to the camp, the cutter having gone a short distance to the southward.

P.M.—The men went on shore and explored the country from the landing to the entrance of the port, through the grass and trees. The report was—the soil bad, trees very small, and but little water; nor could they get any fish. Lieut. Houston and Midshipman Mr. Vernon (son of the Bishop of Carlisle), dind with me. In the eve I went on board H.M. Ship Calcutta to tea and sleep.

Saturday, 22. A.M.—At 7 Mr. Tuckey, the first Lieut., and two boats went to survey from the N.W. point of the bay. In the eve I return to the camp. Lieut. MacCollough, of the Royal

Notes: From this time Mr. Knopwood seems to have had some difficulty to accommodate himself to the seasons of this hemisphere, and frequently adopt the spring and summer months of the north for the spring and summer ones of Australia; but he has generally run his pen through them, though not always; but wherever he has left the errors standing I shall not follow him.—[C.]

Marines, slept at my marquee. Mr. Tuckey, Mr. Gammon, Mid. Mr. Collins, Mr. Harris—the two last gentlemen belong to the colony—they found a fresh water river on the N.E. point of the bay, where they pitched their tent for the night. 1

A Private Remark given me from Mr. Harris and Lieut. Tuckey of H.M. ship Calcutta.

Sunday, 23. A.M.—At 8 they observed three of the natives, who approach them. Mr. Tuckey gave them fish bread, and many presents; they were much pleased and friendly. At 10 Mr. T. and Mr. Collins went across the bay, about 5 or 6 miles, with a boats crew, leaving Mr. Harris and Mr. Gammon & 2 men to take care of the tent, and make observations on shore. The three men, seeing Mr. T. go away in the boat, they likewise went away. Early in the afternoon they returned with a great many of them; and at 2 p.m. they in the boat coming back observed 70 in a party. Mr. Tuckey called to them, at which they hastened to the place where the tent was. On Mr. T. coming up he found Mr. Gammon surrounded; and the chief at that time seized Mr. G., who called out to Mr. T. to fire on them. Mr. Harris was surrounded at the tent; and the blacks taking what they could from the boat. Mr. T. fired over them; they ran away a small distance, but soon approached again with the king (who wore a very elegant turban-crown), 2 and was always carried upon the shoulders of the men. Whenever he desired them to halt, or to approach, they did it immediately. Mr. T. fired over them a second time, at which they removed to a very small distance. Those about the king, to the number of 50 or 60 were all armed. The blacks finding that none were wounded, and that the number were approaching, and the second in command was going to throw his spear at Mr. Tuckey, gave orders to shoot him, as an example; they fired, and Finnis killed him, and another wounded; they all fled. The number of savages were not less than one hundred and fifty. Had not Mr. Tuckey fortunately came up with the boat, no doubt but they would have kill'd Mr. Gammon and Mr. Harris and the 2 men, and have eat them. We have great reason to think they are cannibals.

Remarks at Sullivan Bay and Hobert Camp, Port Phillip, New South Wales, 1803.

Sunday, 23. A.M.—At 11 the whole of the camp assembled, and the Governor at the head of the Royal Marines, with officers, to hear divine service, which was performed in the square of the parade before all hands. Mr. M. Cullough and Mr. White, the purser of H.M. Ship Calcutta, dined with me; in the eve they returned on board.

Monday, 24. A.M.—At 7 the convicts were all mustered and put into different gangs for work. At 1 P.M. people employed cutting wood, &c., &c.

Tuesday, 25. A.M.—At 8 the British flag was hoisted at the camp for the first time in honour of His Majesty's accession to the throne. At 12 the Royal Marines fired 3 volleys in honour of the day. At 1 H.M. Ship Calcutta fired 21 guns on the same occasion. The day was exceeding hot. At 12 the thermometor stood at 92. Confined to my bed the major pt. of the day. At 4 past 6 it was exceedingly cold; the sudden change from heat to cold is very great here, much more than in England.

Wednesday, 26. A.M.—Being very ill, was confined to the marquee. Mr. Edward Brumley, surgeon of H.M. Ship Calcutta, came on shore to visit me, and Capt. Woodriff sent me a bottle of port. P.M.—At 5 the Capt. came to the camp and drank tea with me, likewise Mr. Brumley.

Thursday, 27. A.M.—Being very ill, confind to the marquee. Capt. Woodriff came to see me, and requested me to go on board H.M. Ship Calcutta a few days for change of air.

Friday, 28. A.M.—The day being wet, I continued very ill at the camp. Visited by Capt. Woodriff and the Governor.

Saturday, 29. A.M.—At 9 Capt. Woodriff came to the camp, and at 11 I went on board with him, very unwell.

Monday, 31. A.M.—Do. At 6 p.m. rain. At 8 much lightning. At 10 a very dreadful tempest, the lightning very severe. Mr. Tuckey, &c., surveying the harbour; the lightning so bad that the boat was obliged to return.

Tuesday, 1 November. A.M.—Continual rain, with a heavy thunderstorm; the thermometer 93 at 12, and down to 50 in the eve. Receive a letter from the Governor respecting my health.

Wednesday, 2. A.M.—Rain at intervals. Being much better was able to go to the camp; waited on the Governor. At 11 a complaint came before me as a magistrate that Robert Cannady, servant to Mr. Humphreys, had promised Buckley, the Governor's servant, a waistcoat for a pair of shoes, which he had taken and worn, and would not return the waistcoat; but after hearing them on both sides I had the waistcoat given to Buckley. A.M.—At 12 received stores, &c., from the Commissary, Lieut. Houston, Macalloh and White dined with me. In the eve returned on board with Mr. Tuckey. At 9 Mr. Tuckey, Lieut. Patteshal, and self suppd with Capt. Woodriff.

Thursday, 3. A.M.—Not so well. Mr. Tuckey went surveying. In the aft. Mr. Harris came on board with Mr. White.

1 On the eastern side of the port, twenty-eight miles from the entrance, a stream of fresh water empties itself into the port [Casuarina Bay]. This stream runs through an extensive swamp, and appears to be a branch from a large river at the northern extremity of the port, which the shortness of time and badness of the weather prevented our examining [in the boates]. The bed of this stream is covered with foliacious mica, which our people at first conceived to be gold dust, and thence expected they had discovered an Elizabedadore. —[Tuckey, p. 160.]

2 In "The Life and Adventures of William Buckley" (published at Hobart Town in 1822), who was an absconder from Collins' party in 1803, and lived amongst the Port Phillip blacks for thirty-two years, these "head-band," as he calls them, are spoken of, at page 72, as being much worn in his time, in the fabrication of which they took great pains.
Friday, 4. A.M.—Better. Mr. Harris continued on board, Mr. Houston on shore. Continual boats going to and from the ship with colonial stores. This day the Governor discharged the Ocean transport, Capt. Mathew, Mr. Harris on board 1 to Launceston.

Saturday, 5. A.M.—Employed in clearing H.M. ship Calcutta of stores, &c., for the colony. At 6 P.M., being very much better, I went on shore with Mr. Harris; and Lieut. Houston and MacCulloch sup'd with me. My friends on board the Calcutta as usual were very merry. Mr. Collins, with 6 men in a large boat, said with dispatches from the camp to Governor King at Port Jackson; he was to stop at the Calcutta, to take letters, &c., &c., to the Governor.

Monday, 7. A.M.—The Calcutta’s boats employed bringing stores on shore for the colony from the ship. I dine with the officers at the mess. At 4 P.M. we were informed that Mr. Collins could not get out of the harbours mouth. The married men employed building houses for themselves; 2 in a house.

Tuesday, 8. A.M.—At 10 Mr. Bowden and self went across the island to the opposite shore to see whither we could observe Mr. Collins; but could not; on our return we were informed that he was not out of the harbour. There we see the most dreadful surge I ever beheld. At 4 P.M. we returned. The soldiers wives are permitted to build in the same manner.

Wednesday, 9. A.M.—Three men of the convicts are missing from the camp. The men employed in clearing the guns, and making a battery.

Thursday, 10. A.M.—At 8 Mr. Bowden and self walked to Arthers Bonnet, the S.W. point of the opposite shore from the encampment, and walk'd to the entrance of the harbour, from thence to the Calcutta, where we dine and slept. I kill'd a duck. Mr. Collins this morn got out of the harbour in the boat.

Friday, 11. A.M.—At 9 I returned to the camp with Mr. Tuckey and Mr. Bowden, and we dine with Mr. Houston.

Saturday, 12. A.M.—A party of 6 men went out arm'd in search of 5 convicts that had escaped into the woods; 5 convicts in all absent. A.M.—At 11 all the officers military and civil attended with the Governor and Capt. Woodriff to the parade, and from thence all the convicts at divine service; the sermon preachd was to return Almighty God thanks for our safe arrival here.

2 P.M.—A party went and dine on board the Ocean with Capt. Mathew. I stayd there—

Sunday, 13.—all night. Lieut. Pateshall kill a kangaroo.

Monday, 14. A.M.—At 9 we came to the camp. What officers could be spared from H.M. ship Calcutta came and dine at the camp off the kangaroo, and very excellent it was, the dimensions as follows—

Wednesday, 16. A.M.—At 4 the Ocean transport, Capt. Mathew, drop'd down near the harbours mouth; at 8 brought too, the tide much against him; at 9 I arrived at the Camp; at 4 p.m., five of the convicts that had escaped were brought to the camp; at 11 bur'd the ship's cook of the Calcutta on shore. In the a.m. I went a shooting and kill a teal; Lieut. Dowers and a party came and sup'd with me.

1 Note.—This word seems originally to have concluded the day’s entry, the following words, “to Launceston,” being in quite different ink, and most probably written at an after period.

2 Note.—Mr. William Collins was the Governor’s cousin. He was afterwards Port Officer of Hobart Town and married the sister of Mr. James Hobbs. The names of the six men (convicts) who accompanied Mr. William Collins in this open boat expedition to Port Jackson were:—1. John Rawlinson; 2. Urns Alexander; 3. Christopher Forland; 4. William Thomas; 5. James Price; 6. David Wakfield. For this service they all received a conditional pardon.

3 Note.—It is impossible to give even an approximate date of the transactions of two days in one division of the page; the Saturday’s business being in the margin. The entry is copied exactly as it is in the original.—[O.]
Thursday, 17. A.M.—At 4 I went a shooting; no success; at 8 returned. At half-past ten Capt. Woodriff arrived at the camp with many of his officers that could be spared. The garrison was under arms; 7 past all the convicts were clean dressed, and assembled on the left side of the Parade, and the Lieut. Governor's Commission was read by the Rev. R. Knowwood, Chaplain to the Colony; when that was done, the Military fired three volleys, and all gave three cheers to His Honor. The day would have passed off with the greatest joy, but His Excellency was obliged to punish the 5 deserters that were brought to the camp to deter others from deserting. P.M.—Captain Matthew got out of the Bay of Port Phillip. 

Friday, 18. A.M.—At 8 we observed H.M. Ship Calcutta standing for Arthurs Seat; and at 9 Lieut. Johnson, of the Royal Marines, Mr. Humphries, and self went in my boat for the first time to Yellows Point; we caught some fish, but I killed a couple of very handsome [specimens] of Banks Cockatoos; we returned to dinner. See the Calcutta at anchor. At 5 hard rain and a dreadful tempest, which continued till late at night.

Saturday, 19. A.M.—At 11 see the Calcutta move her station toward Arthurs Seat; at 8 three of the deserters returned to the camp. We received letters from the Calcutta's boat and the natives had obliged the woodmen to return on board. The Calcutta's boat went arm'd and relieved the men; the number of blacks were about 400. At 12 a party were sent to pitch a tent near the Governors garden, to give notice if the blacks were approaching the camp. This storm I sowed gunnycumbers, and onion seeds, and melons. At 4 p.m. heavy rain, with dreadful thunder and lightning.

Sunday, 20. A.M.—At 7 H.M. Ship Calcutta was under weigh, and standing for Fresh Water River. At 11 the military, &c., &c., all assembled; at 7 past all attended the Governor at divine service. The day was very fine. At 8 a.m. rain.

Monday, 21. A.M.—Moderate breezes and clear. At 2 p.m. the thermometer stood at 96 in the shade, and in the sun, by the side of the marquee, 118°. At 4 Mr. Harris and self, with Stewart, a convict, went in my boat a fishing; I caught three maiden rays. We returned to the camp by 8 in the eve; it very soon came on to blow and rain.

Tuesday, 22. A.M.—Strong breezes; at 11 rain; 7 past, a heavy storm of thunder and lightning and hard rain with squalls. P.M.—At 1 more moderate. Received a pocket compass from the store.

Wednesday, 23. A.M.—In the morn Mr. Humphries, Lieut. Johnson, and self went in my boat to the Yellow Bluff to catch fish, but finding the wind too much we were obliged to return. In the afternoon I kill a teal. Continual rain with thunder and lightning.

Thursday, 24. A.M.—At 8 rain; 10, fine settled wr. 3 p.m. I walked to the opposite shore, across the island to the S.S.E. part of the shore; see a great many of the Banktian cockatoos.

Friday, 25. A.M.—At 10 Mr. Bowden and self walked to the opposite shore to Arthurs Bonnet, but found very few shells, the tide come in too rapidly. At 7 past 7 p.m. Mr. M. Collough arrived in the camp from H.M. Ship Calcutta; he walked it from the Fresh Water River where ship layd watering [The Yarra], not less than 45 or 50 miles, a very great undertaking. He and a party sup'd with me. At 9 Sarjeant Thornes wife was deliverd of a boy—the first child born on the settlement of Port Phillip.

Saturday, 26. A.M.—Very unwell. Employed erecting a new signal staff near my marquee. Mr. M. Collough and self dined at the mess. In the eve I walked to the Governors gardens. At 11 p.m. rain with a fresh breeze.

Sunday, 27. A.M.—This morn at 10 the thermometor stood at 96 in the shade. At 11 the military, &c., attended divine service. At 7 past 12 continual thunder at a distance of the N.W. of the encampment. P.M.—At 4 the tempest increase'd, and at 9 it was very violent with rain.

Monday, 28. A.M.—At 9 Lieut. M. Culloch, Mr. Humphries, and self went in my boat to the Fresh Water River, on the E.S.E. side of the bay, where H.M. Ship Calcutta was watering; they were cutting wood. The distance across from the camp to the ship not less than 30 miles per water. At 7 we got on board; at 7 past it rained and blew very hard, with thunder and lightning. That eve Mr. Pattiall with the watering party left the shore, having waterd the ship.

Tuesday, 29. A.M.—The wind blowing contrary, H.M. Ship Calcutta could not leave her station; all hands remain on board.

Wednesday, 30. A.M.—This morn we weighed anchor and went to Arthurs Seat; it blew strong breezes that we could not get on shore.

The 3 following entries refer to the Calcutta taking in 55 tons of fresh water at the Yarra; information which was of course known to Mr. Knowwood, who obtained these entries from that ship's log.—Ed.

Remarks on board H.M. ship Calcutta at Port Phillip and Hobson's Bay.

**Remarks at Sullivan Bay Camp, &c., December 1, 1803.**

**Thursday, 1. A.M.—** Strong breezes and a very great surge. No boat able to go on shore or to the camp.

**Friday, 2. A.M.—** Strong breezes and rain, with thunder and lightning. No boats able to go to the camp, or on shore, the surf being so much.

**Saturday, 3. A.M.—** At 9, the weather being moderate. Mr. Humphries and self landed, with Lieut. Houston, at the bottom of Athers Seat. We walkd to the camp, no boat able to go up, the distance of the walk about 12 miles. That day I dined with the officers of the mess.

**Sunday, 4. A.M.—** Moderate breezes and fair. At 4 past 10, the military parade. At 11, both civil and military went to divine service, and all the settlers and convicts. H.M. ship Calcutta advanced a little way to One Tree Point.

**Monday, 5. A.M.—** Moderate breezes and fair. H.M. ship Calcutta at 10 anchored her old station off One Tree Point.

**Tuesday, 6.** Some of the officers of the Calcutta came on shore. Mr. Brunloy [Bromley], surgeon, and self, with a party, dined with Mr. Houston off goose at his tent. At 6, Mr. Brunloy, Humphries, and Harris and self, went to my summer house, where we smokd till near 1 A.M.

**Wednesday, 7.** Thermometer 96, at 10 A.M. A.M.—½ past 10, Mr. Brunloy, Harris, Humphries, and self, went to the S. b. West part of the coast with our guns and fish spears. The tide coming in we returnd to the camp. In our way there I killd the most beautiful bird of the bitteru species, havi—[indistinct].

**Thursday, 8. A.M.—** This morn I walked to the S. West part of the coast to see whether there was a sail coming from Pt. Jackson, being in great expectation of one every day. Mr. Tuckey, and a party of the Calcutta officers, on shore.

**Friday, 9. A.M.—** At 4, Lieut. Tuckey, R.N., McCulloch, R. Marines; Mr. White, Purser of H.M. ship Calcutta; Lieut. Johnson, R.M.; Mr. Bowden, Surgeon; Mr. Harris, Surveyor; with 3 soldiers armd, and their survants, set off for Western Port. Mr. Sladden and self engaged on some businesses. That Lee had been writing again Mr. Clark and Mr. Ingle.

**Saturday, 10. A.M.—** At 11, Mr. Sladden and self sat till 3 P.M. enquiring into an accusation that Lee should bring forward agst Manning for coining. After a minute investigation found it only a malicious transaction.

I set my white hen on 21 egg this morn.

**Sunday, 11. A.M.—** At 10, the military, settlers, and convicts, assembled. At 11, performed divine service.

**Monday, 12. A.M.—** At 10, a signal was made from the post on the S.W. side of the island that a ship appeared in sight, which we immediately communicated to the Calcutta. At 11, I went on the gun to see them. At 4, we observed the ship to be the Ocean transport, Capt. Merthew, taken into Government service by Governor King for 4 months. The ship brought Mr. Collins and the crew that went to Port Jackson, and dispatches to Lieut. G. Collins. By him we were informed that there was a settlement formed on Van Diamens Land by a part of the convicts, male and female, under the command of Lieut. Bowen, River du Nord, the River Derwent, on the south shore of Van Diemen's Land; and that the Ocean and Lady Nelson, which sailed on the 28 of November, and the Ocean on the 29 of November, have come to Pt. Phillip to remove us there, or where the Lieut. Governor should think proper. Early this morn Lee and another convict went to the Governors garden and procured a gun and ammunition from the gardner, by saying that he came from the Governor, and had orders to receive it.

1 Off the present Alfred George Dock, Williamstown.

2 The log-book of the Calcutta was found by Labilliere who gives these entries in full.—[Ed.]

3 This was the name given by D'Entrecasteaux, subsequently by Hayes of the Bombay Marine called the Derwent, on the south shore of Van Diemens's Land. Bowen's settlement was established at Risdon, so named after the 2nd officer of the Lady Nelson which vessel convoyed the party.
Tuesday, 13. A.M.—At 10, Capt. Woodriff came on shore. The Lt. Governor informed us that H.M. ship Calcutta was going to Port Jackson on Sunday 18 of this month. I went on board, and there I slept.

Wednesday, 14. A.M.—At 11, a signal was made that a strange sail was in sight. At 3 P.M. she came to an anchor. The Francis, schooner, from Port Jackson, sent round by order of Governor King, for to remove the settlement to Van Diemens Land. He brought dispatches from thence for that purpose. At 7 P.M. I return to the camp. The party of gentlemen returned from Western Port. I went to the marquee, Francis, where Capt. Woodriff slept.

Thursday, 15. A.M.—At 9 Mr. Brumley, surgeon of H.M. Ship Calcutta, came on the shore and took breakfast with me. We dined with the officers at the camp. This eve he and a party smold their pipes with me.

Friday, 16. A.M.—At 9 the Francis, that came from Port Jackson, removed near the camp to be repaired. At 7 P.M. I went on board H.M. Ship Calcutta. Capt. Woodriff came on shore and took his leave of me in my marquees. Set the spotted hen.

Saturday, 17. A.M.—At 11 H.M. Ship Calcutta moved her station nearer the harbour's mouth, to Sandy Bay. At 3 P.M. she anchored. At 4 got under weigh again, and moved within 2 mile and 1/2 of the month of the harbour. At 10 P.M. Mr. Collins brought Government dispatches. Mr. Harris, Humphries, Collins, Capt. Matthew sup'd there. This eve Lt. Pateshall and Lt. Dowers, Lt. M. Culloch went and caught some very fine crawfish. I took leave of Capt. Woodriff.

Sunday, 18. A.M.—At 6 I took leave of all the officers of H.M. Ship Calcutta; took my boat and went to the camp, where I arrived at past 8. At 9 I heard that H.M. Ship got out of the bay of Lt. Phillip, and was standing with a fair breeze to Port Jackson. The Lt. Governor is under the necessity of directing that the people who are employed in the preparations which are gentlemen of the mess and other friends. Dalrymple, Van Diemens Land.

While he was smoking a pipe with a convicts, who were all open in front the thermometer was burnt in the shade. The people employ carrying on the warf to remove the settlement. At 5 P.M. the wind changed to S.W.; rain.

Wednesday, 21. A.M.—Moderate breezes and clear. At 2 P.M. took my boat and went a fishing; caught some very fine zing reys near Arthurs Seat. The wind at 5 came against us, and with very great difficulty we reached the camp that night. At 10 rain.

Thursday, 22. A.M.—People employ at the getty. P.M.—Extremely cold, and hard gales from the S.W.

Friday, 23. A.M.—More moderate, but cold, and high sea from the S.W. side of the coast across the land.

Saturday, 24. A.M.—At past 9 Mr. Collins, in a large boat, and the Francis sailed to Port Dalrymple, Van Diemens Land. I went a fishing and caught 8 very fine crayfish, one mullet, and two dotterel I shot. I may with truth say I went out for birds and fish for my dinner, not having any to dress but a few peas. At 10 very fine weather. I sent the Governor crayfish, and the gentlemen of the mess and other friends.

Sunday, 25. A.M.—At past 10 the military assembled. At 11 civil military sellers and convicts, with the Governor, attended divine service; Xmas sermon. After service I publicly baptized Sarjeant Thorn's child. The Governor, Lt. Johnson, Mrs. Powers, and Mrs. WhiteHead stood for the child, the first born in the colony; the Governor hit Robert. The Governor invited me to dine, but was engaged prior. At 1 P.M., the thermometer in the shade 82, I dined with the gentlemen of the mess at Port Phillip. Last night a mast during robbery was committed by some person or persons, in the Commissary's marque. While he was in bed they stole a gun which was hung up near the side of the bed, and took a pair of boots, which were at the bed side. The sentry saw a man come from it, but thought he was his servant. The hospital tent was likewise robbed.

Monday, 26. A.M.—I walked to the S. side of the island to see the surf, which was very great. I dined with the Lt. Governor at 4. At 10 smoked a pipe with Mr. J. 1 past ajord to the Commissary's marquees. 11 the drum beat to arms by reason of some of the convicts had made their escape. The pigeons set.

Tuesday, 27. A.M.—At 9 Lieut. Lord, of the Royal Marines, and self walked to the south side of the shore with our guns. At 3 P.M. we returned. The eve a party came and smoked their pipes. At 9, 6 convicts, endeavoured to make their escape; they were beset by a look-out party and one man shot, very much wounded. At 10 much lightning and rain.

Wednesday, 28. A.M.—At 1 Corporal Sutton returned with the information of 1 man, by name Charles Shore, was shot and much hurt; a cart and men were sent to bring him to the camp. Mr. Bowden went for the man and one taken prisoner. At 4 past 11 I examined the prisoners, and carried the report to the Governor. At 4 past 8 Anchors was detained by the order of the Governor and taken to the gard house.

Thursday, 29. A.M.—At 9 rain and the weather very cold. The people getting off stores to load the Ocean. At 4 I dined with the Lt. Governor, who communicated to me the purport of a letter of the necessity that the civil establishment should form themselves into a patrol of a nigh in case of an insurrection. The thermometer 63 at 3.
Friday, 30. A.M.—The morn much finer than for some days. The people employ’d in getting off the guns from the warf. At 7 p.m. a party return’d from searching all round by Arthers Seat and across to Shank Point after some prisoners that escap’d when the man was shot. Rain in the morn. One of the soldiers of the signal tent was shot at by the deserters from the camp, convicts.

Saturday, 31. A.M.—Moderate breezes and clear. At 6 p.m. the thermometr. 75. No information respecting the deserters from the camp. At 7 Capt. Merthew, of the Ocean transport, called upon me. Great fires made at a distance from the camp; supposed set on fire by the party that escaped from the camp. At 10 we see a native fire across the bay, on the N.W. side of it, towards the lagoon; the natives were very distinctly observed by the fire. The people employ’d loading the Ocean transport. Two soldiers of the R. Marines taken up and carried to the guard house accus’d of mutiny. Deserters from the camp, convicts—Mie Allenman, George Pye, Pritchard, M. Warner, Wm. Buckley; Charles Shaw, wounded and brought to the camp; Page, taken same time when Shaw was shot, G. Lee, and Wm. Gibson.

Sunday, January 1. A.M.—The Lieut. Governor, being desirous of expediting the removing the stores as fast as possible for loading the Ocean transport for our embarking to Van Diemens Land, is under the necessity of ordering the prisoners to work this day as on other. At 10 it was a very cold day, with rain. P.M.—At 4 Mr. Janson and self dind with the Governor, and had ducks and green peas, with fresh beans. In the eve observ’d fires of the natives.

Monday, 2. A.M.—The morn very cold. At 2 p.m. the civil officers met to consult upon the plan of the association and at 4 p.m. Mr. Janson and self kept watch; 11, much rain. Officers of the night watch—Revd. R. K., Mr. Janson; C. Sign, London.

Tuesday, 3. A.M.—At ½ past 4 we went to bed. Report at 10 to the Governor all well in and near the camp. P.M.—At 3 great fires near the camp, made by convicts. Officers of the night watch—Mr. Fosbrook, Mr. Hopley; C. Sign, Exeter.

Wednesday, 4. A.M.—Moderate and fair. Some of the civil officers being unwell, at 9 p.m. I go on the night watch; a very fine night. At 12 all well in and near the camp. Officers of the night watch—Revd. R. Kd., Mr. Bowden; C. Sign, Bath.

By His Honor David Collins, Esq., Lieutenant-Governor of a Settlement or Settlements to be formed in Bass’s Straits, New South Wales.

A plan of an association of the civil officers of the settlement having been submitted by them to the Lieut-Governor, he is pleased to approve thereof, and to authorise them, which he hereby does, to carry the same into effect.

The most probable means of this association rendering a service to the settlement is principally by forming a night watch, to patrole from 9 P.M. to 6 A.M.—The officers of the night watch are to consult upon the plan of the association, and at 4 p.m. Mr. Janson and self kept watch; 11, much rain. Officers of the night watch—Revd. Mr. Knopwood, Mr. Janson, Mr. Bowden, Mr. Humphrey, Mr. Harris, Mr. Fosbrook, Mr. Hopley.

The most probable means of this association rendering a service to the settlement is principally by forming a night watch, to patrole from 9 P.M. to 6 A.M. The officers of the night watch—Revd. Mr. Knopwood, Mr. Janson, Mr. Bowden, Mr. Humphrey, Mr. Harris, Mr. Fosbrook, Mr. Hopley.
Subordinates of the night watch:

Wm. Thomas Stocker, Mr. John Ingle,

Crombe.

Given under my hand, at Head Quarters, Sullivan Bay, Port Phillip,
this 1 day of January 1804.

DAVID COLLINS, Lieut.-Governor.

The 6 soldiers mutinies from Gibralter.
Crombe died at Port Phillip.

Thursday, 5. A.M.—Men employed in loading the Ocean transport. P.M.—Moderate and
fair wt. At 9 P.M. we musterd all the prisoners, fearing that any should be absent. I set up late
looking out after some prisoners. Officer of the night watch—Mr. Hopley; C. Sign, Penzance.

Friday, 6. A.M.—At 5 Mr. Wm. Stocker and 2 men and self armd went to the harbours
mouth. Did not find the trace of any convicts. At 3 P.M. returned. Killed a red bill, &c., at 9.
Rain. Officer of the night watch—Mr. Harris; C. Sign, Exmouth.

Saturday, 7. A.M.—At ½ past 5 P.M. the drum beat to arms; the military and all the
officers of the association, with the subordinates, attended. Each man received a brace of pistols
and 4 rounds of cartridge and balls, and 1 lb. of bread, and 1 lb. of beef, ½ a pint of spirits. At
½ past 3, 9 soldiers armd with the same rounds of cartridge, sargant-major (MacCauley), 1 drummer,
and the gentlemen of the association and subordinates—in the whole, military, 11; association,
18—went in search of some convicts that had escaped from the camp. We all went first to the
lagoon and to the harbour mouth to the west, from thence to the flagstaff to the south, beyond
Needle Point; then took a course S.E., and back to the camp, which we reached at 7 P.M. We
found many places where they had been, and some of their things. It was computed that the
distance we walked could not be less than 60 miles, some said more.

Sunday, 8. A.M.—Dark cloudy wt. People employed loading the Ocean, by which means
we had not divine service performed. P.M.—At 8 rain; 9, fine wt. The thermometer at 64. My
brown hen had 7 young chickings. Officers of the night watch—Bowden and Fosbrook ; C. Sign,
Tinmouth.

Monday, 9. A.M.—All the morn engaged on justice business. P.M.—Clear wt. Received
of Governor Collins three gallons of spirits. Officers of the night watch—Mr. Harris, Mr. Hopley;
C. Sign, Torbay.

Tuesday, 10. A.M.—Moderate and clear; people employed variously. At 2 P.M. Governor
Collins, Lient. Lord, Mrs. Powers, and self went in the Governors bont on board the Ocean,
and dind with Capt. Mathew; at 7 we returned to the camp. On duty—R. Kd., Mr. J. anson; C. Sign,
Norwich.

Wednesday, 11. A.M.—Very hot day at ½ past 11. Punished 2 men, Taylor and Blackmore,
for content of the military, with 100 lashes each. At 12 heard the report of a gun at a distance
from the native harbour; sent a man to the flagstaff; 10 minutes past hear the report of cannon. At
2 P.M. Capt. Mathew came to the camp and informed the Governor that the report of cannon was
the 1 mante scald one of the guns from the Ocean. My man returned from fishing, and caught 2
rock. In the eve at 9 we obsered 2 large native fires on N.W. Therm. 92 & 94, with all the
canvas down. On duty—Fosbrook and Bowden ; C. Sign, Hope.

Thursday, 12. A.M.—Moderate and hazy. At 2 P.M. obserd a schooner coming into the
Bay; at 3 she came to anchor near the Ocean transport; at 4 a boat landed from her; she came
from Pt. Jackson, ship name the Edwin. In the eve Mr. J. anson, Lieut. Johnson, R.M. came and
smoked a pipe; at ½ past 11 I went a round in the camp to see if all was quiet, when I unfortu-
ately sprained my ancle, very bad. On duty—Mr. Harris and Hopley; C. Sign, Ramsgate.

Friday, 13. A.M.—Extremely hot this day, and confid to my marquee. P.M.—People
employed in loading the Ocean transport. At 7 the Lt. Gov. requested I would not attempt going
on guard this night. On duty—Mr. J. anson; C. Sign, Broadstairs.

Saturday, 14. A.M.—Rather better; at 11 the Lt. Governor called on me; at 4 P.M. the
thermometer 92; at ½ past 6 the thermometer 76. This day twelvemonth I received my appoint-
ment as chaplain to the settlement or settlements of New S. Wales. On duty—Mr. Fosbrook,
Bowden; C. Sign, Settingbourne.

Sunday, 15. A.M.—At 7, rain. ½ past 10, it blew very hard, with rain, which continued
till ½ past 12 P.M. At 4 thunder and lightning. At 8 information was given from the Ocean
that Capt. Mathew had 2 men drowned by the boat upsetting from Swan Island. At 9 the
tempest very severe. On duty—Harris and Hopley.

Monday, 16. A.M.—The day very hot. At 1 P.M. MacAllan [McAllenon] went to the
Lient. Governor's garden and surrendered himself, with a gun that was Mr. Fosbrooks the Com-
missary. At 2 he was brought into the camp. On duty—Mr. J. anson; C. Sign, Henley.

Tuesday, 17. A.M.—Engaged all the morn in taking the depositions of Dan Mac Allenan,
the prisoner that escaped with Pritchard and the party when Charles Shaw was shot. Saild for
Kings Island the Edwin. On duty—Mr. Fosbrook and Bowden; C. Sign, Woodstock.
Wed., 18. A.M.—The day very fine. At 11 the thermometer stood at 82. At 1 P.M. ther. 92 in the shade, 110 in the sun. At 1 the military assembled on the parade in their new cloaths and fired 3 excellent volleys. At 4 past 3 a hut belonging to Lieut. Johnsons, of the R. Marines, took fire and burnt down, with another of Lieut. Lords, and very near setting the marquee on fire. Observation of the thermometer taken by Mr. Harris in his note—:

This has been by far the hottest day since we came to the camp. On duty—Mr. Harris and Mr. Hopley ; C. Sign, Charlotte.

Thursday. 19. A.M.—At 9 a strong hot N.W. wind, and the country all on fire about Arther Seat, and to the N.E. of it. At 11 rain. P.M., at 4, rain. At 9 very hard rain, with lightning and thunder. On duty—Mr. J anson; C. Sign, Crane.

Friday. 20. A.M.—Moderate wind, and cool. At 2 P.M. came to anchor the Ann from Pt. Jackson, with dispatches from Govr. King to Lieut. G. Collins. On duty—Mr. Fosbrook and Bowden; C. Sign, Baker.

Saturday. 21. A.M.—Engaged all the morn on business, taking the deposition of Chs. Shaw. At 1 P.M. information was given that 2 vessels were in sight from the Flag-staff, standing towards this harbour. At 3 a brig came in sight. At 4 came to anchor the Lady Nelson, brig, from Pt. Jackson, and the Edwin from Kings Island. On duty—Harris and Hopley; Adams.

Sunday. 22. A.M.—At 8 the Lady Nelson, brig, and Ann, cutter, anchored opposite the camp. At 9 very hot. ½ past 10 the military assembled. At 11 the Lt. Gov., civil and military officers, attended divine service, and all the convicts. At 1 we observed the country on fire all round Arthens Seat, and to the N.East. At 9 I went upon guard, my let (leg?) being very much better. On duty—Rev. R. Knowwood, Mr. J anson; C. Sign, Simondz.

Monday, 23. A.M.—At 11 observed a large fire near the camp, between the Yellow Bluff and the camp. Set upon business respecting Hartley at the mess room. Lieut. Sladden and Mr. Harris for the first time. On duty—Mr. Fosbrook and Bowden; C. Sign, Champion.

Tuesday. 24. At 11 A.M. the Court sat again and finished the business. At 10, 1 Lieut. R. Marines went on board with 20 soldiers. At 2 P.M. 120 of the convicts went on board the Ocean transport with their baggage. At 3 one of the prisoners that had been absent a long time returned in a very weak state; his name Jones.

Remarks on board the Ocean, transport, Port Phillip Harbour, January 1804.

Wednesday, 27. Wind N.East. A.M.—The wind moderate. At ½ past 1 P.M. a fresh breeze. At 2 weighed anchor and went to the Harbours mouth. At 3 anchor—all on board.

Thursday, 28. At 8 the wind at S.East, unable to sail. All remain [on] board the Ocean. We observed a very large fire near the camp.

Friday, 29. A.M.—At 10 Capt. Mathew, Mr. Humphrys, and self, went on shore for a walk. Returned at 4 P.M. to dinner. We heard from the camp that many of the natives were about it, and that one was in the camp.

Monday, 30. A.M.—At ¼ past 4 weighed anchor, and made all sail out of the harbour of Port Phillip. At 3 P.M. I dined with the Governor. At 6, the wind being still against us, we were in sight of land about Port Phillip. At 7 the Lady Nelson, brig, in company.
Tuesday, 31. A.M.—The wind contrary; made very little progress during the night.
At 9 the Lady Nelson, brig, in company. At 71 the wind still unfavourable, S.E. b. E. Made little progress; but the wind a very fresh breeze.

Distance from Port Phillip to the River Derwent per sea 420 miles.

**Thursday, 9.** S.b.W. S.W.b.S., S.S.W. ½ W., S.W.b.S., S.S.W., S.S.W. A.M.—At 2 wore ship; strong winds and cloudy, with lightening from the eastward. At 6 strong winds and clear wr. At Cape Bassaltan N. 87 W. At 9 wore ship. At noon strong gales and squally, with rain. Latt. obsd. 43° 28' south. P.M.—Strong gales and squally. At 4½ past 3 wore ship. At Cape Bassaltan S.W. being then one with the south point of the island. At 7 Cape Bassaltan bore west, and the island, south point, N. 85° west. Cape Bassaltan is one of the capes that you pass on the starboard side as you enter the bay; it is the most remarkable of any that you see. This morn at 9 o’clock we were coming up the mouth of the river with a very fine breeze, but was obliged to put back the wind was so much agst. us.

**Friday, 10.** S.b.W. A.M.—At 3 more moderate and cloudy; 8, light variable airs, inclining to a calm. At noon Cape Bassaltan bore S. 56 W.; sprung up a northward favourable light breeze from 14 N. W. by N. 3Æ 19' south. We tacked, 43° 19' south. A.M.—At 2 fresh breezes and cloudy wr. at 3 squally; in studding sails. At 6 Cape Bassalters N.W.; sounded in 43 fathoms, white sand with brown specks. At 7 light breezes; Cape Bassalters bore south 88 east. At 8 fresh breezes and hazy with squalls; at ½ past 8 wore ship; at 10 sounded in 35 fathms.; ½ past 11 wore ship; at midnight sounded 37 fathms. This night we were in Storm Bay, tacking repeatedly from shore to shore.

**Saturday, 11.** N.N.W., W.b.S., West. A.M.—At 2 hazy with rain; at 3 wore ship; at 4 Cape Bassalters E.b.S.; made sail. At 5' tacked ship and plyd to windward up Storm Bay. At 7 fresh breezes and light squalls; at 11 strong gales and squally with rain. P.M.—At 2 strong gales, with very heavy gusts of wind; wore ship. At 3 down top gallt. yards, and bore up for Frederic Henry Bay. At ½ past anchor'd in 8 fathms.; Cape Deslacs 1 S.E.E., and the north end of Frederic Henry Bay, Island N. 65° E.; latter part, more moderate and cloudy. At 4 Lient. Lord Mr. Humphries landed with 4 convicts arm’d to walk to the Riv. Derwent, dist. 14 or 15 miles by the charts. The first English ship anchor’d in this bay.

**Sunday, 12.** W.N.W. A.M.—Fresh breezes and cloudy, with squalls at times. At 10 Capt. Merthew, Mr. Bowden, Mr. Collins, and self went on shore; we went arm’d. Capt. M. and self left them; we landed on the shore W.b.S., lagoon of salt W.N.W., fresh lagoon N.W.b.W. At the back of the high hill we see a great number of wild fowl and one emew, quails, brown swan, pigeons, and numerous other birds. At 4 wore ship to the party we left, and got a great quantity of oysters. It appeared to me that the natives were much better supplied with fish and birds than those at Port Phillip. The trees are very large and good, and a great deal of underwood. Near the fresh lagoon, which was large—more than 12 or 14 miles round—was a great quantity of flax and very fine; besides ducks and teal there were snakes, and I think a woodcock was flushed. At 4½ past 6 we returned in a very heavy gale of wind, with hard rain.

**Monday, 13.** W.N.W. A.M.—Strong breezes, with heavy squalls of wind and rain. At 10 a party were sent on shore to get oysters, but the tide did not suit the lagoon. 17 of the natives were seen by the party; they reported the natives to be men well made, entirely naked, and some of them had war weapons; they had a small boy with them about 7 years old, and did not appear to flee from them. P.M.—At 3 Capt. Merthew and Mr. Collins went on shore to get oysters.

**Tuesday, 14.** W.N.W. A.M.—Fresh breezes and hazy wr. Unable to sail, the wind against us. 4 p.m. Capt. Merthew went on shore a short time.

**Wednesday, 15.** W.N.W. A.M.—First part light variable winds, inclining to a calm; at 4 sprung up a breeze from the N.W.; weighed and made all sail. At 10 calm, light airs; 4 past light airs from the S.E. The centre of Betseys Island S.W.b.S. At noon tacked ship to the eastward. P.M.—½ past 1 tkl. ship; at 3 round Betsey Island, and bore up for the entrance of the harbour. At 4½ past 3 saw a boat a-head, which came alongside with Mr. Simonds, commander of H.M. Brig Lady Nelson, and went with us up the Riv. Derwent. At 4½ past 6 anchor’d in Risdon Cove, 3 fathms. Latter part light breezes and hazy.

1 Cape Deslacs of the charts, near Pipe Clay Lagoon.—[C.] 2 Risdon Cove, improperly called "Readown," was named by Lieut. Bowden after the 2nd officer of the Lady Nelson, which vessel carried Bowden and his party from Sydney to form the settlement in June 1803.—Ed.
Remarks, Risdon Cove, Van Diemens Land, Feb. 1804.

Thursday, 16. A.M.—The morn very fine. At 10 the Lieut. Governor, self, and Lieut. Lord, of the Royal Marines, went on shore to see the settlers form'd by Lieut. Bowen, of the Royal Navy. As we left the ship, Cap. Mertho, of the Ocean Transport, saluted Lieut. Coll. Coll., the new Governor, with 11 guns. When landed we were received by Lieut. More, the commandant of the New South Wales Corps, Mr. Mongarrett, the surgeon, and Mr. Wilson, the storekeeper; the camp consisted of 16 privates, 1 sarjant, 1 drum and file. After examining the camp, gardens, water, &c., it was the general opinion to be not calculated for a town. At 2 the Lieut. Gov. returned on board. I dined with Mr. Mongarrett at his house, on the N.-East side of the river. The watering place is by no means good. Capt. Bowen returned to Port Jackson with an intention of going to England.

Friday, 17. A.M.—At 10 the Lieut. Governor, Mr. Collins, and self went to examine a plain on the S.W. side of the river; the plain extensive, and a continual run of water, which is very excellent; it comes from the lofty mountain, much resembling the Table Mountain at the Cape of Good Hope. The land is good, and the trees very excellent. The plain is well calculated in great advantage, besides the landing of the stores so much better.

Saturday, 18. A.M.—At 11 the Gov., Mr. Harris, Capt. Mertho, and self went and examined a part of the river to see a plain for the settlers, but the Gov. did not approve of it. The ground appeared to be much injured by the torrents of rain. The trees are very large and good. At 5 p.m. the Gov. went on shore to the settlement on the N.E. side of the river, and ordered the tents to be struck and sent on board the Lady Nelson. At 6 a little rain; they have not had a good shower of rain for 4 months.

Sunday, 19. A.M.—Strong breezes and small rain. At 6 weighed anchor and dropped down the river towards Sullivan Bay, but the wind coming on to blow hard, came to anchor at 12. At 3 weighed anchor in Sullivan Bay, near the small island; Capt. Mertho, Mr. Collins, and self went on shore, see some very fine trees.

Monday, 20. A.M.—Part (of?) the military this morn went on shore, and a part of the convicts, to pitch their tents. P.M.—At 4 the Governor and some of the civil officers went on shore. He ordered my marquee to be pitched very near his, as it was at Pt. Phillip. In the eve returned on board. At 6 the military landed and as many convicts as could be sent on shore.

Tuesday, 21. A.M.—At 10 I went on shore to see my marque pitched; returned to dinner on board the Ocean. At 6 p.m. the Lt. Governor went on shore, having landed all his baggage, &c. At 7 I went and slept at my marque for the first time, and the Lieut. Governor honoured my name for parol, the first given on the new settlement, and Lieut. Lord's name for the C. Sign. My marque is pitched near the Gov., on the left of him. I slept at the camp for the first time, and so did the Lt. Gov. Parole, Knopwood; C.S., Lord.

Wed., 22. A.M.—Clear morn. and fine. At 8 went on board the Ocean, Capt. Mertho, to breakfast, having few things unpack'd. At 9 returned to the camp. 11 Mr. More, Commandant of Risdon, waited upon Lieut. Gov. Collins, having some men deserted from his settlement. Employed getting my things in order. P.M.—I dined on board the Ocean, and at 7 p.m. left the ship and came to the camp. Mr. Wilson, the Commissary of Risdon Cove, called upon me. C.S., Brown.

Thursday, 23. A.M.—Very fine weather. At 10 Mr. Harris and self walked to see the country. Mr. Mongarrett, the surgeon of Risdon Cove, called on me. P.M.—The convicts employed in preparing a warf at the landing place on the island. Preparing a ser. for Sund. Early this morn a bantycoote kill'd two of my fowls, of my white hens. Capt. Mertho called on me. C.S., Innis.

1 It is difficult to determine in what sense Mr. Knopwood uses the word plains here and elsewhere, all the surface about Hobart Town being undulatory, and, at the time he writes of, much wooded. The following is the description of the place as it was in 1804, written by the chief officer of the Lady Nelson (Lorcen Jorgessen) and published in Hobart Town, 1885, who assisted to establish both Risdon and Hobart Town: "During our absence," that is at Port Phillip, to remove the second draft of Collins' people to the Derwent—"the station at Risdon was found ineligible, and the present site of Hobart Town was ultimately determined on. We landed at Sullivan's Cove, and having pitched our tents, spades, axes, saws, and axes were put into the hands of prisoners, and we commenced clearing away as fast as we could. As I walk up and down the streets of this now crowded and large town, I cannot always divest myself of the remembrance of what it was at that time—35 years ago. The spot where the Bank of Van Diemen's Land, the Hope and Anchor, and the late Mrs. Kearney's habitation now are was then an impervious grove of the thickest brushwood, surmounted with some of the largest gum trees that this island can produce, and all along the rivulet, as far up as the hands of the military this morn went on shore. He ordered my marque to be pitched very near his, as it was at Pt. Phillip. In the eve returned on board. At 6 the military landed and as many convicts as could be sent on shore.

2 It is probable the Hunter's Island, now swallowed up in the "Old Wharf."
Sunday, 36. A.M.—At 10 the military paraded; ½-past all the convicts, settlers assembled, and the Lieut. Gov., with the officers of the new colony, heard divine service. The sermon, by request of the Lt. Gov., was upon the prosperity of the new settlement, and to pray to God for a blessing upon the increase of it. Mr. More, the Commandant, and Mr. Wilson, the storekeeper from Risdon Cove, attended divine service. At 1 p.m. Lieut. Lord, Mr. Humphrys, Mr. Collins, Mr. Simmons, of H.M. Brig Lady Nelson, and self went in the Gov. black cutter to Risdon Cove, where I did duty to all the convicts, &c., &c. I dined with Mr. Montgarret, and returned in the eve. C.S., Winter.

Monday, 27. A.M.—This morn we had rain. Mr. Montgarret, from Risdon Cove, visited the camp, and he informed us that they had not had rain for 4 months. P.M.—Do. wt. The convicts employed in making some store houses on the island. C.S., Anderson.

Tuesday, 28. A.M.—We had rain all night. Caught a spotted cat which had killed my fowls, and the Governor's gamekeeper brought me a large kangaroo, the first kill'd in this colony. C.S., Varlo.

Thursday, March 1. A.M.—Very fine weather. H.M. Brig Lady Nelson was to have sail'd this day with dispatches to Port Jackson, but they were not finish'd. C.S., Flight.

Friday, 2. A.M.—This morn went a shooting early, and kill'd a quail. Dind on board the Ocean with Capt. Merthow. In the eve Mr. More and Montgarret call'd upon Capt. Merthow; stayd late. C.S., Campbell.

Saturday, 3. A.M.—Employ'd in writing letters. At 4 Mr. Simonds, H.M. Brig Lady Nelson, dined with me. At 6 we took a walk; I kill'd 4 quails, two of which I gave to Mr. Montgarret and one to the Governor. In the eve fresh breezes.

Sunday, 4. A.M.—At 11 the Governor and all the officers, &c., &c., attended divine service. At ½-past 12 sent all my letters on board the Lady Nelson brig. Dind with Capt. Merthow on board the Ocean transport. C.S., Despatch.

Monday, 5. A.M.—At 9 I went on board the Ocean with Mr. Humphrys. 10 Capt.Merthow, Mr. Brown (the botanist), and we went to Risdon Cove, where we dind with Mr. Montgarret. At 4 we all went up the Derwent River, where we slept on the west side of it, about 17 miles from the camp; I kill'd two black swans. C.S., Herdsmans Cove; Parole, Excursion.

Tuesday, 6. A.M.—At 5 we all got in our boats and went 8 miles up the river and break-fasted; on the east side of the river got some more swans. At 10 we got into the boats again and went 10 miles further up, where we dind, and pitch'd our boat sails for a tent. At 4 Mr. Montgarret and Mr. Humphrys left us for Risdon Creek. Capt. Merthow and self went a shooting; kill'd a pigeon. At 6 a.m. H.M. Brig Lady Nelson sail'd for Pt. Jackson with a fair wind. C.S., Pillar.

Wednesday, 7. A.M.—At 6 we break-fasted. ½-past 7 Capt. Merthow and self went a shooting 15 miles up the river. Mr. Brown went up the mountains a botanizing. The river took these directions, where the falls of water were—I, fall reach, E. to W.; 2d., from S.E. to N.W.; 3rd reach, S.W.; 4th, W.S.W.; 5th reach, N.B.W. We walk'd on the west side of the river; the hills, &c., very high. When one side of the river was hilly the other a vally, and it continued so for more than 40 miles from the camp, where there was an extensive plain of very few trees. We see kangaroos, emus, pigeons, and parrots. At ½-past 4 we return'd to the hut we left in the morn. During our walk we a great many native huts and the fires they made; no doubt they see us. In the eve the natives made a fire near where we slept, on the west side of the river. C.Sign. Hogan.

Thursday, 8. A.M.—At 5 rain, with hard squalls. We struck our canvass and sail'd for Herdsmans Cove, where we reach'd about 10 and break-fasted; the land appear'd not very good. At 12 as we were coming from thence a native appeard, but the distance was too great to discover much of him. Strong breezes and squally. At 5 we arriv'd at the Ocean, where we dind, and went to the camp at ½-past 6. C.S., Palmer.

The first party that went on excursion up the river.

1 Mr. Knopwood was formerly private chaplain in this family.
2 Probably he was a relative of the Hon. Allen Hyde Gardner, R.N., Captain of H.M. Ship Resolution, of which Knopwood was chaplain; a very intimate friend.
3 An illegible word here.
Friday, 9. A.M.—At 8 many of the natives were about the camp, but not prevail’d upon to enter; Capt. Merthow and Mr. Brown had an interview with them on the shore near the Ocean. The people employed about the Lt. Governor’s house. P.M.—In the eve Mr. Bowden and self took a walk. The Governor slept in his house for the first time. C.S., Townson.

Saturday, 10. A.M.—Moderate and fair. Went out a shooting and kill’d some quails. P.M.—At 4 ½ a schooner appeared in sight. Name the Pilgrim. Capt. Dillano, who has the Pera seer nau. At 6 a boat came on shore with the Governor of Risdon Creek. Lt. Bowen, of the Royal Navy, received letters from Mr. Brumley and Lt. Houston, who is now appointed Governor of Norfolk Island. C.S., Native.

Sunday, 11. A.M.—At 11 performed divine service. At 2 p.m. Mr. Humphry and self went on board the Ocean and dined with Capt. Mental. In the eve Lt. Bowen, Lt. Moore, Mr. Mountgarret came on board the Ocean, and stayed late; likewise the Capt. of the schooner dined there, Mr. Delano. C.S., Bowen.

Monday, 12. A.M.—Employed variously. Capt. Dillano, of the schooner Pilgrim, call’d upon me. P.M.—In the eve walked with my gun. C.S., Integrity.

Tuesday, 13. A.M.—At 3 it blew a perfect gale of wind, which continued some time. At 11 Mr. Moore, Mr. Mountgarret, call’d upon me. P.M.—At 4 I walked out with my gun, and kill’d a very fine kangaroo. At 6 return’d to the camp. The first kangaroo that had been kill’d by any of the gentlemen in the camp. C.S., Hauers River.

Wed., 14. A.M.—Mr. Moore and Mr. Wilson call’d upon me. P.M.—Mr. Wilson and Lt. Lord dined with me. C.S., Buckingham.

Dear Sir,

I beg to refer you to Mr. Moore for the particulars of an attack the natives made on the camp to-day; and I have every reason to think it was premeditated, as their number far exceeded any that we ever heard of. As you express a wish to be acquainted with some of the natives, if you will dine with me to-morrow, you will oblige me by christening a fine native boy who I have. Unfortunately, poor boy, his father and mother were both killed; he is about two years old. I have likewise the body of a man that was killed. If Mr. Bowen wishes to see him despatched, I will be happy to see him, with you to-morrow. I would have wrote to him, but Mr. Moore waits.

Your friend,

J. Mountgarrett-Hobart, six o'clock.

The number of natives I think was not less than 5 or 6 hundred. —J. M.

Thursday, A.M.—At 7 I went in my boat to Risdon. The wind come so much against me that with very great difficulty I got to the farm, where I left my boat and walked to Hobert Town. In the evening Lt. Johnson dined with me. C.S., Massey.

Friday, 19. A.M.—This morn my man returned with the boat. I sent the Governor a dish of green peas, the first that had been seen; they were taken from Mr. Moor’s garden at Risdon. At 5 p.m. I dined with Lt. Johnson, and met Mr. Humphry, there. No success this day after kangaroos. C.S., Penn.

Saturday, 20. A.M.—The morn very hot. At 4 p.m. rain, which continued some time. At 9 observed a very fine rain bow from the S.S. west, which continued some time; then we heard the rain very much from the mountain. C.S., Walker.

Sunday, 21. A.M.—At 10 rain, accompanied with thunder and lightning. At 12 the w. very fine, but very cold, and excessive hard gales of wind, which continued all night. Mrs. Sargent came into the camp to live with her husband. My little white hen hatching her yand; the 2d breed since Feb. last. C.S., Mexico.

Monday, 22. A.M.—10 do. wr., with rain. Salmon killed a kangaroo. We had very violent squalls of wind and hard rain. At 5 p.m. Lt. Johnson dined with me. C.S., Hague.

Tuesday, 23. A.M.—My little white hen came off with 7 young-chickens. A.M.—At 10 the Lt. Governor and self in his boat went across the river to see what ship was coming in. At 12 we return’d and concluded to be the Alexander whaler, Capt. Rhodes. At 8 p.m. a boat came on shore with Mr. Cap. Capt. R. I dined with Lt. Johnson. C.S., Vivian.

Wednesday, 24. A.M.—At 6 I sent my boat to Mr. Millers the settlers, with Groves in it. At 11 the Governor, Mr. Powers, and self went in his boat up the river with an intention to dine at Millers (the Governor took every thing with him). At 12 o’clock the weather came on very bad, that we were obliged to run into the farm cove, and went on shore and dined at Mr. Hobbs house, the day was so wet. At 5 p.m. I walked to Millers, where I slept, and Mr. Groves likewise.

Thursday, 25. A.M.—At 6 we got up and breakfasted; sent Salmon out with the dogs to meet us at Mr. Harris hut. At 8 we got there, 14 miles from Miller’s. Salmon came with a kangaroo; we breakfasted there. At 2 p.m. 9 we got in the boat and went up the river 2 miles, where we met Mr. Harris and party returning; we went back and gave them the provisions that I brought out with me. At 11 we pitched the tent and stayed there all night. Mr. Groves and self went to see Herdeman’s Cove and the land there.

Friday, 26. A.M.—At 7 we breakfasted, and at 9 Mr. Harris went on measuring the course of the river. 12 I got into my boat. Salmon this morn killed 2 kangaroos, and we went for Risdon. I killed 3 black swans. At 2 we arrived at Risdon, where we dined, and slept at Mr. Mountgarret’s house.

Saturday, 27. A.M.—Early this morn Salmon went out with the dogs, but had no success. We breakfasted there, and at 10 came away and arrived at the camp. I killed 2 black swans. Mr. Harris returned to the camp and dined with me. C.S.

Sunday, 28. A.M.—Cold rainy wr. At 1 p.m. all the convicts were mustered at one of the huts to see respecting their clothing. At ¾ past 2 performed divine service to the sick at the hospital: 4 Capt. Rhodes, of the Alexander whaler, dined with me and Mr. Harris and Lt. Johnson. C.S., Bligh.

Monday, 29. A.M.—Strong winds. At 12 I went on board the Alexander with Mr. Bowden to take swagges. At 5 p.m. Capt. Rhodes, Mr. Humphreys, Mr. J. anson, and self dined with Mr. Harris. Capt. Rhodes stay’d all night at my marquee. C.S., Thompson.

Tuesday, 30. A.M.—Capt. Rhodes breakfasted with me. At 12 Mr. Fosbrook, Harris, Janson, Bowden, and self went on board the Alexander to take tiffin. At ¾ past 1 Mr. Harris, J anson, and self came away; the other two gentlemen were going up to Risdon with Capt. Rhodes in his boats. C.S., Hope.

Wednesday, 31. A.M.—I sent my man Salmon with my dogs to kill kangaroo for the Governor, his dog Paddy being staked. C.S.

Thursday, November, 1. A.M.—At 12 I walked to the farm. At 5 Mr. J. anson and Lt. Johnson took a stake with me. My man return’d from kangaroo hunting with the Governor’s keeper; they went out the morning before and brought home 4 large forest kangaroos. C.S., Steele.

Friday, 2. A.M.—At 8 I went across the river with my boat, and Mr. Groves with me. At 3 p.m. the Governor’s boat return’d from Betseys Island and brought with them a native man. The man was much covered with charcoal, and had a bag made of kangaroo skins about his neck which contain’d teeth of one of the tribe. The same afternoon he was dressed in trousers and a shirt and jacket given him by the Governor. C.S., Dryden.
Saturday, 3. A.M.—This morn I heard that the native man deserted from Hobert Town. At 10 Mr. Fosbrooke and Mr. Bowden with Capt. Rhodes returned from their excursion; they had very good luck, killed and took 17 black swans. At 5 p.m. the weather began to blow from the N.W. At 8 it blew very hard gales from the same quarter. C.S., Gay.

Sunday, 4. A.M.—At 11 performed divine service, and His Honor the Lt. Governor, &c., &c., &c., attended. At 2 p.m. I performed divine service at the hospital. At 4 Mr. Harris and self dined with the Governor, and the three we had very severe gales of wind; expected every moment the marques to be blown over. Wind N.W. C.S., Churchell.

Monday, 5. A.M.—At 1 it rained very hard. 9 do. wr. 1 p.m. continued rain. At 3 I dined on board the Alexander, Capt. Rhodes; came on shore at 8. The weather very bad with rain and wind. C.S., Plot.

Tuesday, 6. A.M.—The weather very windy. At 3 His Honor the Lt. Governor went on board the Alexander to dinner. Mr. Harris and self met him there. On his getting on board the crew gave him three cheers. We came away with him at 3-past 7. Spent the day very pleasantly. C.S., Young.

Wednesday, 7. A.M.—Capt. Rhodes and self went to the farm. At 5 p.m. the civil and military dined with Mr. J. Anson. C.S., Parnell.

Thursday, 8. A.M.—At 10 I went out a fishing with Groves, and caught some very fine flat heads. 3-past 12 we went on board the whaler. At 4 p.m. Mr. Harris, Capt. Rhodes, and self dined with His Honor the Lt. Governor. At 12 we had severe lightning. The people employd building huts, &c., &c., &c., Mason.

Friday, 9. A.M.—At 1 a very dreadful tempest of thunder and lightning. 2 it rained very hard, which continued some time. At 4 a hot wind came on from the N.W. At 3 p.m. Mr. Harris, Fosbrooke, Bowden, and self dined on board the Alexander, Capt. Rhodes. C.S., Perrin.

Saturday, 10. A.M.—At 10 Capt. Rhodes and self went in his boat to Millers' farm, where we were to have met His Honor the Lt. Governor. At 11 the wind blew very hard, which continued some time. Soon after we arrived at Millers the Gov. sent a man to inform us that he could not come forward, but that he should dine at the farm and should be glad to see us at dinner there. We dined with him at his marque, and walked home in the evening. The convicts who were marred had some houses building in their extra time. C.S., Return.

Sunday, 11. A.M.—At 11 performed divine service; the Lt. Governor and all attended. Capt. Rhodes and Mr. Johnson dined with me. C.S., Gay.

Monday, 12. A.M.—Mr. Harris and self dined on board the Alexander, Capt. Rhodes, and Mr. Fosbrooke and Mr. Bowden. C.S., Hobart.

Tuesday, 13. A.M.—Preparing my letters to England for the Alexander whaler. Settled with Capt. Rhodes. The Governor supplied Mr. Harris and self with 14 days' provisions and a boat. Letter for 1 Esq., Mr. and Mrs. F., Miss Kd., Wm. Tustin, Esq. C.S., Wilson.

Wednesday, 14. A.M.—Fresh breezes from the S.W. All hands employed as needful. Middle part more moderate; at daylight clear. At 5 a.m. took the breeze from the N.W.; took the anchor and bore for Storm Bay passage. At 6 a.m. went on board: Revd. R. Kd., G. P. Harris, and James Groves, with a Government boat manned with the following men:—Henry Hakin, the Gov. coxwn, Powell, Garrett, &c., Richardson, Davis, Atkinson, Scholar, Wm. Russell, Henry Miller, and Salmon. At 12 brought up in Storm Bay passage in 26 fathoms water with the peak of the table Mountain, which we gave the name of Mount Collins in honor of the Lt. Governor; the mount bearing N.W., Point Louis N. by east 4 miles, the east point of Isle Bruny S.W. by S. dist. 4 miles. At 3 p.m. sent 3 boats for black swans, and Mr. Harris, Capt. Rhodes, Groves, and self on shore. It was the North Cove where the ship lay'd; the soil very bad, all stones, and the tree not good. At sun set we returned and the 3 whale boats; they took 79 swans. This aft. when we lay'd at anchor we see 2 of the natives on Isle de Bruny.

Thursday, 15. A.M.—Fresh gales. At 2 the anchor came home equally, brought up in 12 fathoms in a hard muddy bottom. At 12 sent a boat to Hobart Town with letters, and for some sheet lead. Mr. Collins bore N.N.W., and Point Luis N.E. dist. 3 miles. The Isle Bruny, N.E. b. E., dist. 1 mile, the point from the westmost shore, that from the N.W. branch, W. by North, dist. 2 miles.

Friday, 16. A.M.—This morn we went to the opposite shore, where, after tracing the coast 6 miles, we arrived at a fine cove, which abounds with oysters. On the north side, a little above low water mark we found a large conger eel, which the Revd. R. Knopwood shot. It weighed 29 lb. We gave the name of the cove Conger Cove. In this cove we marked a tree—R. Knopd., R. Rhodes, Nov. 17, 1804. From the ship the tree is 4 miles, S.W. b. S. It stands from the rocks on the side of the hill. The boat up at Hobart Town.

On board the Alexander, whaler, Capt. Rhodes, Storm Bay Passage, November 1804.

Saturday, 17. A.M.—This morn we went on shore on Isle Bruny, and see many grass trees. The day was very wet. We killed a kangaroo. The men took some black swans.

Sunday, 18. A.M.—At 8 observed a boat come round Point Louis. At 10 she came on board. Struck top gallant yards at meridiana hard gales and squally. We continued on board with the boat belonging to Government. At 6 p.m. let go the other bow'er anchor. Hard gales. The wr. was so bad that we could not stir out.

Monday, 19. A.M.—At daylight more moderate. Hove in the small bow'er and secured it. At 8 sent 2 boats after black swans. At 10 they returned with 21. This morn Capt. Rhodes, Mr. Groves, and self, went on Isle Bruny and kill'd a kangaroo. After travelling in the country several miles we returned to a point where we ordered the boats to. Here we marked 3 trees laying * None omitted.
in the N.E. and S.W. direction. At the back of them Revd. R. K. put several sorts of seeds in the ground. The trees were marked as follow:—The Revd. Robt. Knopwood, Nov. 19, 1804; on the back D. G., for Daniel Groves, son of Mr. Groves; and to the S.W. six paces R. Rhodes, Commander of the Alexander, whaler; to the tree 24 paces S.W., G. P. Harris, Surveyor, Hobert Town; and on the back J. Groves. This point I gave the name of Alexander Point, in honor of our friend Capt. Rhodes. The peaks of the Table Mountain bore N.N.W., and Conger Cove W. 1/2 S., dist. 3 miles.

Tuesday, 20. A.M.—At 8 took up the anchor and got under weigh. At 1/2 past 1 brought up in 8 fms., about a mile distant from Green Island. At 3 we went on shore on Green Island, and got a dozen black swans eggs and some young birds.

Wed. 21. A.M.—At 4 took the anchor up and ran down the passage as far as the mouth of the River Huon. At 9 brought up in 8 fms. At 10, 4 boats left the ship. At 3 we returned, having been up the River Huon, where I see a beautiful island, which I give the name of Garbuns. I'm bound of my friend the Hon. A. H. Gardner, Capt. of H.M. ship Hero. We caught some crayfish and got some shells. At 4 the three boats returned with 78 fine black swans, The Alexander layd at anchor near a small rock, much like Noah's Ark Rock at Simons Bay, Cape of Good Hope.

Thursday, 22. A.M.—At 8 the Government boat left the ship. At past 1, Mr. Harris and Groves, in one boat, Capt. Rhodes and self in another boat, went up the River Huon. Opposite the Huon Island is a sunken rock, in the mouth of the river, which runs 1/2 mile long from east to west. We went up the river as far as the flats, where we pitch'd our tents; made ready for dinner some black swans, which we caught in abundance.

In the River Huon. 1804. In the Storm Bay Streights, 1804.

Friday, 23. A.M.—At day light we got up and breakfasted. Sent the whale boat after swans, and we went in the Government cutter up the Huon to the fall. The river is by no means so fine as the Derwent, and as for the land there is none not even fit for a garden. At the first fall there is a small island in the middle of the stream. At 1/2 past 1 we returned, and arrived at the Camp Point, where we left in the morne, when we dind and slept.

Saturday, 24. A.M.—At day light we got up, and at 3 1/2 a.m. made sail. At 8, or 1/2 after, we all got on board the Alexander, where she was laying near the Isle of Huon, in the Streights.

Sunday, 25. A.M.—At 10 a breeze sprung up. Mr. Harris, Groves, and self, went in the Government boat, and on our leaving the ship we gave them three cheers. Capt. Rhodes hoisted his pendant, and we were cheered by all the crew. We went into a bay called La Petit Anse, on the N.E. It being Sunday, and having come some way, I gave orders for the tents to be pitch'd, roasted some black swans, and there we slept. We observd many of the native fires. At 11 a.m. Capt. Rhodes saidl back into the Streights.

In Storm Bay Streights, 1804.

Monday, 26. A.M.—Very early this morne we breakfasted, and at 6, with a party of our men, with Mr. Harris and Groves, went up a mountain, steering a N.E. b. E. course, and with very great difficulty we got up to the top of the mountain. We were three hours and a half going about 1 mile and a half. Upon the top we see a very fine cedar and sassafras. At 12 we returned; got every thing ready for sailing. At 3 past 1 sailed, and went into a bay near [the rest left blank]. We slept on the west side of Storm Bay Passage.

Tuesday, 27. A.M.—At 6 we breakfasted, and prepared to sail to Hobert Town. 13 minutes past 7 made sail, wind south, Green Island E.N.E. At 12 we observed the Alexander, Capt. Rhodes, under sail, beating out of the Streights. At 3 past 1 we got on board. The wind came quite back, in host of my friend the Hon. A.H. Gardner, Capt. of H.M. ship Hero—schooner, I sent the pilot, Henry Hakin, on board to take care of her. The wind—We all slept on board.

Wed. 28. A.M.—At 7, Mr. Harris and Groves went in the Government boat to Hobert Town after breakfast. Capt. Rhodes and self went in his boat. At 3 past 10 we arrived. I waited on the Governor. At 11, the George, schooner, Capt. Stewart, anchord in the Bay. I dind with the Governor. Capt. Rhodes slept in my marque. We were all much delighted with the excursion, and indebted to Capt. Rhodes for his kind attention to us. I brought the Hosen pine home with me; the first seen.

Friday, 29. A.M.—Capt. Rhodes breakfasted and dind with me and Mr. Johnson. Found that the ground at my garden would not do. The well was very bad; salt water. C.S., Buffalo.

Remarks Hobert Town, River Derwent, Van Diemens Land, 1804.

Friday, 30. A.M.—Capt. Rhodes staid with me. We walkd to the farm together. Cudi up Martha Bays. Little G. Collins dind with me. C.S., Kent.

Saturday, December 1. A.M.—At 10 Capt. Rhodes went in his boat to his ship; the wind was more moderate. It was mentioned that Mr. Powders and Shipman had got their free pardon. C.S., Kents Bay.

Sunday, 2. A.M.—At 1/2 past 10 performed divine service. I read at church the General Order received from His Excellency the Commander in Chief of the division of the 2 counties, and the settlement at Hobert Town, under the command of Lt. Gov. Collins, should be calld Buckinghamshire, and the one under Lt. Col. Patterson should be calld Cornwall. At 4, Mr. Harris, Capt. Stewart, and self, dind with the Governor. Cornwall.

1 Probably Garden Island, as it is now called. 2 Correctly copied. It should probably be 5. 3 Correctly copied. 4 Something left out here. [C.]
Monday, 3. The first five days we have had for some time. Engaged all the moro upon justice business. The Governor gave me leave to exchange the ground for a garden. C.S., Buckinghamshire.

Tuesday, 4. A.M.—The day very hot. At 11 I went on board the George, schooner. At ¾ past 1 the Governor went to his farm to dinner, and Mrs. Powers. C.S., Northumberland.

Wednesday, 5. A.M.—At 9 I went in my boat down the river, and returned at 3 p.m. At 5 all the civil and military dined with Mr. Johnson in his own house, it being his turn to give a monthly dinner. C.S., Cumberland.

Thursday, 6. A.M.—Engaged in planting potatos. [potatoes] At 4, Mr. Harris, Fosbrook and Capt. Stewart, of the George, schooner, dined with me off mutton.

Friday, 7. A.M.—My man returned with a very large emew. In the eve I took a walk. C.S., Derwent.

Saturday, 8. A.M.—Stayd at home writing letters to send to Port Jackson. In the aft Groves and self walkd to the farm. C.S., Dispatch.

Sunday, 9. A.M.—The Governors despatches not being ready, and the wind blowing, we had no duty performed. At 4 p.m. Mr. Fosbrook, Bowden, Mr. Stewart, of the George, schooner, and self, dined with Mr. Harris. Elephant Bay.

Monday, 10. A.M.—At 8 a very hot wind came on from the N. East, which continued till 1 p.m. We then heard thunder at a distance. At 2 it began to rain very delightful showers. At 4 I dined with Lt. Johnson. At 5 thunderd very much. C.S., Tuckey.

Tuesday, 11. A.M.—At 6, the George, schooner, Capt. Stewart, got under weigh, and went down the river to Kings Island for seal skins. In the eve I took a pipe with Mr. Groves, the pipe drank tea with the Lt. Governor. C.S., Armstrong.

Wednesday, 12. A.M.—The coroners inquest sat upon the body of Bradley, on suspicion that he had receive d blows from fighting with Cole, a convict, but after a very minute investigation they brought in their verdict accidental death, from his falling upon some stump of trees and tools, &c. &c. George Collins dined with me. C.S., Harcourt.

Monday, 13. A.M.—I went to my new garden, and had it marked out. C.S. [word omitted]

Friday, 14. A.M.—At 8 the Gov., son, and self, went up to Risdon in my boat. At 3 p.m. we came from thence, and dined with the Gov. at the farm. 3 past 9 Mr. Fosbrooks servt. arrived at the camp, and informed me that his master, Mr. Janson, and Mr. Hopley, were lost in the woods. C.S., Bensley.

Saturday, 15. A.M.—I sent my man Salmon with Mr. Fosbrook, supplied with ammunition and provision, in search of the three gentlemen that were lost. At 8 I went down with one of Government boats into Ralphs Bay in search of them. At 11 I observed 2 people walking upon the beach at a distance (by the help of my glass), upon which I fired a gun. Soon after I see a boat standing in for the land, and I made signals for her to come up. At 11 I got on shore, and to my comfort see Mr. Fosbrooke and Mr. Janson, both of whom were then lost. They informed me that they had been lost since Thursday morn at 3 a.m., and had nothing to eat since that time but a few mussels and 4 oysters. Their chief support was the sprouts from the she oak. Mr. Hopley had left them that morn early, and on the arrival of the boat he informed us that he was picked up by my man Salmon, and that it was impossible for him to have reached the tent had it not been for Mr. Fosbrook and Janson were going into the woods again had they not heard the guns from my boat. They informed me they were so exhausted they could not have survived another night. I first gave them some bread and spirits and water. At 1 we got into the boat and went to the tent, where I had some kangaroo stakes dressed. At ¾ past 3 we got into the boat and came to Hobert Town. C.S., Hanover.

Sunday, 16. A.M.—At 10 the wt. was so bad that we could not have divide service performed; at ¾ past 1 I performed divine service at the farm. At ¾ past 3 I dined with the governor.
