NOTE.—It will be seen that there is a great fluctuation in various items of the value of Imports and Exports from year to year. As this arises from many causes, it is suggested that, to obtain the consumption of any particular article, an average should be struck of three or more years. The same remarks apply to comparisons between different years. In the case of dutiable articles mentioned in the appended return, the annual consumption can be accepted with greater reliance.

## VICTORIA.

RETURN showing the Net Quantities of various Articles upon which Duty was paid for Home Consumption in this Colony during each of the years 1872, 1873, 1874, 1875, 1876, 1877, 1878, and 1879.
