<sup>1</sup> This column presents a statement of the average numbers attending at one service only on the Sabbath, and it has been pointed out that this mode of calculating the attendance does not render the returns of the different denominations strictly comparable, inasmuch as, in connection with some religious bodies, there are several services held on the same day, at each of which an entirely distinct set of worshippers attends, whilst, in the case of other denominations, the attendance at subsequent services always consists, to a greater or less extent, of the same individuals as were comprised in the first congregation.—<sup>2</sup> These figures are stated to be only approximate.—<sup>3</sup> The figures relating to the Congregational Union, the Baptist, and Church of Christ, are stated to be only approximate.

NOTE.—The returns of several of the denominations show smaller numbers than they did in the previous year, but it is questionable whether a falling off really occurred. It is to be regretted that some of the religious bodies do not possess any regularly organized machinery for obtaining accounts of their strength and progress. The same remarks apply to the Sabbath Schools, *post*.

<sup>1</sup> The average number attending not having been furnished for the year 1880, these figures have been calculated according to the proportion furnished for the year 1879.

<sup>2</sup> No returns having been received from the Congregational Union since 1877, the figures supplied for that year have been repeated.

<sup>3</sup> The figures relating to the Baptist and Church of Christ are only to be regarded as approximate.

NOTE.—Several of the denominations have not distinguished the sexes of teachers and scholars, hence the sum of males and females in the total line does not agree with the total of both sexes. See foot-note to table "Churches, Chapels, &c.," ante.

<sup>2</sup> In the Melbourne Immigrants' Home the *distinct individuals* relieved during the years 1877, 1878, 1879, and 1880 have been given, instead of *acts of relief*, as in former years.

<sup>1</sup> It is probable that the figures in these columns do not always indicate distinct individuals, but acts of relief, and that a person relieved over and over again is the cause of as many entries as he is times relieved.

NOTE.—The returns of some of the societies do not distinguish the sexes of the persons relieved, hence the sum of the males and females on the total line does not agree with the total of both sexes. The returns of receipts and expenditure represent the net amounts received and expended during the year, exclusive of credit and debit balances, &c.
